

What is the cutoff date for paying special assessments?

- Property owners may prepay a portion of or the entire assessment amount with no interest charges prior to our payment deadline of November 15 each year.
- If the property owner does not pay the assessment in full on or before November 15, the assessed amount will be spread over the full assessment period, and will be certified and payable to Hennepin County with property taxes.
- After assessment, payment of the remaining balance due may be made in any year if paid on or before November 14, however, interest will be assessed through December 31st of that year.
