May 25, 2021

To the Honorable Mayor and Members of the City Council
City of Robbinsdale, Minnesota

Mayor and City Council Members:

Minnesota Statutes require all cities to issue an annual report on its financial position and activity prepared in accordance with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed certified public accountants or the Office of the State Auditor. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report of the City of Robbinsdale, Minnesota (the City) for the fiscal year ended December 31, 2020.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation for the City's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of the internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this Comprehensive Annual Financial Report is complete and reliable in all material respects.

The City's financial statements have been audited by Malloy, Montague, Karnowski, Radosevich & Co., P.A., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended December 31, 2020 are free of any material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended December 31, 2020, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

The management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

Profile of the Government

The City is a first ring suburb located northwest of the city of Minneapolis. The City has a land area of 2.9 square miles with a population of 14,741. The City continues to maintain a small-town feel, yet is located just minutes from downtown Minneapolis.

The City provides its residents and businesses with a full range of basic governmental services consisting of public safety, public works, parks and recreation, and general administrative services. In addition to basic governmental services, the governing body exercises financial accountability over the Robbinsdale Economic Development Authority (REDA). The REDA's governing board is made up exclusively of City Council members; therefore, all of its activities are included as part of the reporting entity. The Robbinsdale Fire Relief Association (the Association) has not met the established criteria for inclusion in the reporting entity and, accordingly, is excluded from this report. The Association is not a component unit because it is organized independently under state law. The Association's audited annual financial reports are available in its offices, as well as at City Hall.

Local Economy and Housing

The City's downtown area maintains a mix of retail, professional businesses, and a variety of restaurants. National notice has been given to Travail, which partnered with the REDA in 2012 to construct a new 96-seat restaurant, as well as Pig Ate My Pizza, which took on the previous location. In 2018, plans moved forward to relocate the Travail restaurant. The project to redevelop a new site replacing two substandard buildings was approved and construction was completed in March 2020. Pig Ate My Pizza renovated and moved to the previous Travail location. The downtown area also has regional draws with Hackenmueller's Meat Market, Wuollet Bakery, Wicked Wort craft beer brewpub, Marna's eatery and lounge, and Nonna Rosa's restaurant. Outside of the downtown area, there are two shopping centers, a Hy-Vee grocery and the North Memorial Healthcare (NMHC) campus.

The Metropolitan Transit Blue Line light rail service is planning to run an extension line north from the Minneapolis-Saint Paul International Airport to a redevelopment area by I-694 in Brooklyn Park and a station in the downtown Robbinsdale area. Currently in the development stage as Hennepin County and Metropolitan Council explore routes that do not use freight rail property. The potential for light rail has resulted in an increase in development discussion in and around the downtown area.

The City is home to the NMHC, a regional medical facility. The NMHC has a large hospital facility and multiple associated medical office buildings. The NMHC is the City's largest employer, with 5,000 employees.

The City's housing market is primarily single-family homes that are pre-World War II vintage. During 2018 and 2019, the REDA approved tax increment districts to facilitate the construction of two Class A, four story, multi-family rental buildings with 152 and 194 market rate apartments. The projects, known as Birdtown Flats and Parker Station Flats, involve the redevelopment of several existing parcels in the City.

Although the City is fully developed, there are a few in-fill projects:

- Typically, one to two scattered sites are acquired, cleared, and sold each year for new larger single-family homes.
- Preliminary discussions for a 118-unit apartment on the north side of South Twin Lake with development start dependent on owner financing.

Long-Term Financial Planning

The City receives local governmental aid (LGA) through the state of Minnesota to help pay for basic governmental services. This aid is based on a funding formula that includes volatility in the calculations that determine how the amount is allocated among cities in the state.

The City received a total of \$1,982,591 in LGA in 2020, an increase of \$153,650 from the prior year. The City expects to receive \$2,043,372 in state aid in 2021, an increase of \$60,781. This will assist in relieving budget stress imposed in prior years as the City has made up a majority of the state aid loss through an increase to its property tax levy and other fees and spending reductions.

Historically, the City has seen fluctuation in the amount of LGA received from the state. In 2008, the actual amount received decreased by 50 percent from the 2002 level to assist in balancing the state budget. The amount of LGA has recovered beginning in 2014.

Additionally, the City extended through June 2023, a franchise fee on revenues that an electric utility receives from customers located within the City. The franchise agreement with a gas utility needs to be renegotiated in 2021 for a new agreement term starting in 2022. The City Council approved a fee increase to 5 percent effective July 1, 2019 through July 1, 2023. This fee has been in place since 2003. This fee helps support some basic governmental services and provides additional funds towards the City's long-term street replacement program.

The City annually prepares and adopts a Ten-Year Capital Improvement Plan (CIP), which serves as a planning document to ensure that its facilities, equipment, and infrastructure are well maintained and operating efficiently. The CIP is a planning tool that forecasts the City's capital needs over a 10-year period based on city-adopted long-range plans, goals, and policies. The CIP includes detailed descriptions of every capital project the City anticipates to initiate during the ten-year period.

Key priorities for the City for 2020–2021 are to:

- Continue the community policing connection with residents and falling crime rates
- Maintain the Infrastructure Replacement Program, including LED street lighting replacements and construction phase for water treatment plant and water tower replacement
- Provide safe and fun places in parks focusing on quality rather than quantity of facilities
 - Completion of Lakeview Terrace Park reconstruction
 - Plan for Triangle Park improvements
- Encourage partnerships for improvements in parks
- Uphold aggressive housing rental licensing and point of sale standards
- Prepare for Light Rail Transit (LRT)
- Enhance the downtown area
 - Refresh 25-year-old streetscape and aging infrastructure
 - Address downtown parking challenges
- Liquor store marketing and sales improvements

The City subscribes to the “pooled cash” concept of investing, which means that all funds with cash balances participate in an investment pool. This permits some funds to be overdrawn and others to show cash balances when, in fact, the City as a whole has a cash balance. This pooled cash concept provides for investing greater amounts of money at more favorable rates. Investment earnings are then allocated yearly based on quarterly cash balances to the participating funds. For further information on the City’s cash and investments, please see Note 3 of the City’s notes to basic financial statements.

The City belongs to two organizations that were created for insurance purposes. The League of Minnesota Cities Insurance Trust (LMCIT) was founded to provide general liability and workers’ compensation insurance to the LMCIT members. The program provides coverage for damages up to \$2,000,000 per incident and limits the City’s liability to \$25,000 per claim and \$100,000 per year for general liability. Also, Minnesota Statutes provide limits on liability claims to cities. The LOGIS Insurance Group is a joint powers agreement between local government agencies that have combined their group size for pooling of health and life insurance experience ratings. The group annually reviews coverage and costs offered by health maintenance organizations that provide insurance to the members and bids group life insurance.

Relevant Financial Policies

The City Council will continue to review its policy on the level of the General Fund balance reserves, which is currently 40 to 50 percent of the subsequent year’s expenditures. Due to past cuts in state aid, to assist in balancing the state budget, this will continue to be an important element of future budget planning. As in prior years, the City Council may determine to use a portion of the General Fund balance to assist in balancing future budgets. This will help to reduce the amount that property tax levies will increase for property owners or minimize reductions in services. The City Council will continue to provide that the balance is adequate to finance cash flow needs for subsequent years.

Major Initiatives

While continuing to reconstruct various streets throughout the City, the 2021 budget includes an investment being made to resurface local streets and alleys, which are seeing surface degradation, but not scheduled to be reconstructed in a 10+ year horizon. The 2020 year was spent planning and designing projects that included the Chowen Avenue Reconstruction area and Lee Avenue Reconstruction.

Significant City Council and staff engagement was invested in reviewing LRT plans proposed for extension of the Metropolitan Transit Blue Line light rail through the City inside the BNSF right-of-way. Municipal consent was given in early 2016. Unfortunately, BNSF indicated it was not interested in selling and alternative routes are being explored. A goal is to identify a locally preferred alignment by end of 2021 and restart with detailed construction planning starting in 2022 for a start no sooner than 2025.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2019. The City has received a Certificate of Achievement for the last 41 years (1979–2019). In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program’s requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

We wish to express our appreciation to the Mayor and City Council for their continued interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner. We also want to express our appreciation to the entire Finance Department staff for their efficient and dedicated services in the preparation of this report.

Respectfully submitted,

Marcia Glick
City Manager

Jeff Zuba
Finance Director

INDEPENDENT AUDITOR'S REPORT

To the City Council and Management
City of Robbinsdale, Minnesota

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Robbinsdale, Minnesota (the City) as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

(continued)

OPINIONS

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund and major special revenue funds for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and the required supplemental information (RSI), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, supplemental information, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

(continued)

OTHER REPORTING REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 25, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Malloy, Montague, Karnowski, Radosevich & Co., P.A.

READER'S NOTES:

CITY OF ROBBINSDALE

Management's Discussion and Analysis Year Ended December 31, 2020

As management of the City of Robbinsdale, Minnesota (the City), we have provided readers of the City's financial statements with this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, located earlier in this report.

FINANCIAL HIGHLIGHTS

- The overall net position of the City increased \$5,403,979 in the current year. The change in net position related to governmental activities was an increase of \$3,207,084, while the net result of business-type activities was an increase of \$2,196,895, including a decrease of \$265,528 from prior period adjustments correcting prepaid expenses and intergovernmental revenues.
- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$85,790,175 (net position), as compared to \$80,386,196 at the end of 2019. Of this amount, \$22,350,619 (unrestricted net position) is available to meet the City's ongoing obligations to its citizens and creditors. At year-end, the City was able to report a positive balance in all categories of net position.
- At the end of the fiscal year, the unassigned fund balance for the City's General Fund was \$5,626,756, which represents 53.7 percent of total General Fund expenditures for 2020.

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements. This report also contains other supplementary information, in addition to the basic financial statements.

Government-Wide Financial Statements – The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to private sector businesses.

The Statement of Net Position presents financial information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (delinquent taxes and special assessments).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by property taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities include general government, community development, public safety, recreation, and public works. The business-type activities of the City include utilities (water, sanitary sewer, storm sewer, and solid waste removal), liquor operations, Broadway Court, and Deputy Registrar.

Fund Financial Statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as the balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government’s near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. Both the governmental funds Balance Sheet and Statement of Revenue, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The City maintains six individual major governmental funds. Information is presented separately in the governmental funds Balance Sheet and Statement of Revenue, Expenditures, and Changes in Fund Balances for the General Fund, Robbinsdale Economic Development Authority (REDA) General Development Special Revenue Fund, REDA Tax Increment Financing (TIF) Development Special Revenue Fund, REDA Tax Increment Debt Service Fund, General Debt Service Fund, and the Permanent Improvement Revolving (PIR) Capital Projects Fund. Data from the other nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund and major special revenue funds. A budgetary comparison statement has been provided for those major governmental funds to demonstrate compliance with this budget.

Proprietary Funds – The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Internal service funds are accounting devices used to accumulate and allocate costs internally among the City’s various functions. The City uses internal service funds to account for the following operations: central garage, central services (general office, information technology, and government buildings), equipment replacement, risk insurance, and benefit accrual. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary funds financial statements provide separate information for the water utility, sanitary sewer utility, storm sewer utility, solid waste removal, liquor operations, and Broadway Court, all of which are considered to be major funds of the City. Conversely, nonmajor enterprise operations (Deputy Registrar) and internal service funds are combined into single, aggregated presentations in the proprietary funds financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Fiduciary Fund – The City maintains one fiduciary fund, which is used to account for resources held for the benefit of parties outside the government. The fiduciary fund is not reflected in the government-wide financial statements because the resources of this fund are not available to support the City’s own programs. The accounting used for the fiduciary fund is much like that used for proprietary funds.

Notes to Basic Financial Statements – The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information – Required supplementary information (RSI) is presented following the notes to basic financial statements. Combining and individual fund statements and schedules for nonmajor funds and other schedules are presented immediately following the RSI. Statistical tables are presented as the last section in this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the City's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$85,790,175 at the close of the most recent fiscal year.

Net Position – The City has 60.1 percent of its total net position invested in capital assets (land, land improvements, buildings and improvements, machinery and equipment, infrastructure, and construction in progress) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot liquidate these liabilities. An additional 13.8 percent of the City's net position represents resources that are subject to external restrictions on how they may be used. The remaining 26.1 percent of net position is unrestricted and may be used to meet the City's ongoing obligations.

The following is a summary of the City's net position:

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Current and other assets	\$ 32,283,767	\$ 32,318,018	\$ 20,382,553	\$ 16,386,284	\$ 52,666,320	\$ 48,704,302

Total net position	\$ 46,175,839	\$ 42,968,755	\$ 39,614,336	\$ 37,417,441	\$ 85,790,175	\$ 80,386,196

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities. Changes in state-wide pension plans contributed to the differences in total deferred outflows, noncurrent liabilities, and deferred inflows. The City issued general obligation debt that is mainly being used to fund street projects and a new water treatment plant project, which increased current and other assets, capital assets, and noncurrent liabilities in the above table, compared to the prior year.

The following is a summary of the City's changes in net position:

	Governmental Activities		Business-Type Activities		Total	
	2020	2019	2020	2019	2020	2019
Revenues						
Program revenues

Governmental Activities – Governmental activities increased the City's net position by \$3,207,084. Key elements of this change include:

- Governmental activities recognized an increase before transfers of \$2,624,973.
- Business-type activities net transfers contributed \$582,111 of the total change in net position.
- Revenues increased by \$2,746,033. While many sources increased, unrestricted grants and contributions, as well as capital grants and contributions, were the primary cause for the increase. The increase in unrestricted grants and contributions included additional federal funding received in the current year in response to the COVID-19 pandemic.
- Expenses increased by \$422,632, or 3.2 percent, with the largest changes occurring with increased community development and public safety activity in the current year.

**Expenses vs. Program Revenues
Governmental Activities**

Revenue by Source – Governmental Activities

Business-Type Activities – Business-type activities increased the City’s net position by \$2,462,423, before the prior period adjustments previously discussed, and after \$582,111 of net transfers to governmental activities.

The water utility increased net position by \$970,149, excluding the prior period adjustment. Operating revenues decreased by \$220,881 in the current year, due to a one-time water access charge for the Parker Station Flats in 2019, offset by an increase in rates. Operating expenses increased \$49,086, having more spending in personal services and depreciation within the water utility system. Rate increases are monitored and planned within the City’s Ten-Year Capital Improvement Plan (CIP), which is updated annually.

The sanitary sewer utility increased net position by \$627,595, excluding the prior period adjustment. An increase in rates covered inflationary operating expense increases and contributed to the improved operating results, compared to the prior year. Rate increases are monitored and planned within the City’s CIP, which is updated annually.

The storm sewer utility increased net position by \$437,335. Operating revenue increased by \$123,345, primarily due to an approved rate increase. Operating expenses decreased by \$244,804, primarily in other services and charges and depreciation on storm sewer infrastructure. Rate increases are monitored and planned within the City’s CIP, which is updated annually.

Solid waste removal increased net position by \$234,133. Operating revenue increased in the current year, primarily due to a rate increase approved for 2020. Operating expenses increased 23.0 percent, due to a contract increase with the solid waste hauler. Rate increases are reviewed and updated annually. This operation had income before transfers of \$434,133 in 2020, allowing transfers of \$200,000 to other city funds in the current year.

Liquor operations reduced net position by \$2,087. Gross profit was 28.2 percent of net sales, which exceeds the 26.0 percent target. Operating expense decreased 9.6 percent, due to a reduction in personal services. Transfers to other funds totaled \$200,000, and transfers from other funds totaled \$9,330 in the current year. Revenues and expenses were down from the prior year, due to closures during the year, due to the ongoing COVID-19 pandemic.

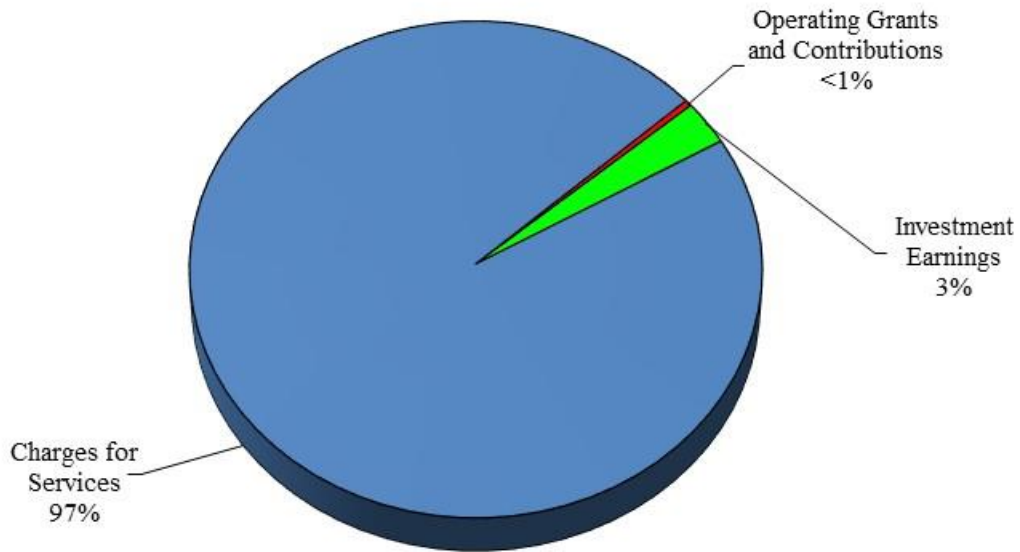

Broadway Court, which relates to the rental operations of the Broadway Court Senior Housing Complex, owned and operated by the REDA, increased net position by \$231,051. Operating revenues and expenses were similar to the prior year, resulting in an operating income of \$257,480, compared to an operating income of \$232,916 in the prior year.

The Deputy Registrar decreased net position by \$35,753. Operating revenue decreased by 29.6 percent, while operating expenses decreased by 21.9 percent, due to a decrease in personal services. Transfers to other funds totaled \$50,000, and transfers from other funds totaled \$32,687 in the current year. The operations of the Deputy Registrar were also impacted by the COVID-19 pandemic as reflected with the change in current year revenues and expenses.

Business-Type Activities**

Revenue by Source – Business-Type Activities

FINANCIAL ANALYSIS OF THE CITY AT THE FUND LEVEL

Governmental Funds – The City’s governmental funds reported combined ending fund balances of \$22,261,862, a decrease of \$397,401. The fund balance is comprised of nonspendable, restricted, committed, and assigned items, which equal 93.6 percent of the fund balance. Unassigned fund balance is 6.4 percent.

General Fund – The fund balance increased by \$269,118. The fund balance at year-end is \$5,925,159. This is equal to 56.5 percent of total 2020 expenditures in the General Fund, which puts the General Fund in a solid financial position. During 2020, this fund reported \$73,559 of net transfers out as approved by the City Council.

General Fund operating results are summarized as follows:

	<u>2020</u>	<u>2019</u>
Fund balance – beginning of year	\$ 5,656,041	\$ 5,560,988
Additions		
Revenue	10,822,337	10,195,195
Other sources – transfers in and sale of capital assets	<u>1,026,891</u>	<u>317,930</u>
Total additions	<u>11,849,228</u>	<u>10,513,125</u>
Deletions		
Expenditures	10,480,110	9,818,072
Other uses – transfers out	<u>1,100,000</u>	<u>600,000</u>
Total deletions	<u>11,580,110</u>	<u>10,418,072</u>
Fund balance – end of year	<u><u>\$ 5,925,159</u></u>	<u><u>\$ 5,656,041</u></u>

Of this fund balance, \$5,626,756 is unassigned. The City has established a minimum unassigned fund balance policy of 40.0–50.0 percent of the subsequent year’s budgeted expenditures. At year-end, the unassigned fund balance of the General Fund was 49.1 percent of the subsequent year’s budgeted expenditures. This amount is needed to provide for General Fund operations during the first half of the year, since the City does not receive any significant money from its main revenue source—property taxes—until July of each year. The City reported \$1,430 of equity restricted for specific purposes in the General Fund at year-end. Also, \$287,799 was assigned for the subsequent year’s budget, while \$9,174 was considered nonspendable for prepaid items.

General Fund Revenues – The following is an analysis of 2020 General Fund revenue:

Revenue	Original 2020 Budget	Final 2020 Budget	2020 Actual	Over (Under) Final Budget	Percent Over (Under) Final Budget
Property taxes	\$ 6,320,973	\$ 6,320,973	\$ 6,335,156	\$ 14,183	0.2 %
Special assessments	–	–	37,876	37,876	–
Licenses and permits	441,700	441,700	536,823	95,123	21.5
Intergovernmental	2,308,457	2,308,457	2,736,898	428,441	18.6
Charges for services	622,844	622,844	482,046	(140,798)	(22.6)
Fines and forfeitures	285,500	285,500	137,250	(148,250)	(51.9)
Franchise fee tax	382,000	382,000	379,482	(2,518)	(0.7)
Interest and dividends	75,000	75,000	78,825	3,825	5.1
Net change in fair value of investments	–	–	86,983	86,983	–
Miscellaneous	<u>9,000</u>	<u>9,000</u>	<u>10,998</u>	<u>1,998</u>	22.2
Totals	<u><u>\$ 10,445,474</u></u>	<u><u>\$ 10,445,474</u></u>	<u><u>\$ 10,822,337</u></u>	<u><u>\$ 376,863</u></u>	3.6

Overall, revenues were over budget by 3.6 percent as presented in the table above. The largest variances were in licenses and permits, which were higher, due to additional construction activity and conservative budgeting for this less predictable revenue source, and intergovernmental revenues, which were higher, due to community development grants for the Parker Station Flats that were not budgeted for. Property taxes were over budget by \$14,183, coming within 0.2 percent of the amount projected in the budget.

General Fund Expenditures – The following is an analysis of 2020 General Fund expenditures:

Category	Original 2020 Budget	Final 2020 Budget	2020 Actual	Over (Under) Final Budget	Percent Over (Under) Final Budget
General government	\$ 975,123	\$ 975,123	\$ 981,559	\$ 6,436	0.7 %
Community development	494,612	494,612	827,215	332,603	67.2
Public safety	6,141,444	6,141,444	5,686,222	(455,222)	(7.4)
Recreation	1,393,549	1,393,549	1,152,950	(240,599)	(17.3)
Public works	1,998,612	1,998,612	1,832,164	(166,448)	(8.3)
Totals	<u>\$ 11,003,340</u>	<u>\$ 11,003,340</u>	<u>\$ 10,480,110</u>	<u>\$ (523,230)</u>	(4.8)

General Fund expenditures were \$523,230, or 4.8 percent, under budget as presented in the table above. Savings were largely in personal services (\$635,321) and supplies (\$44,958), which were partially offset by other services and charges coming in over budget by \$157,036. Expenditures were under budget, due in part to shared restraint by all departments and difficulty hiring open positions.

The budget for the General Fund was not amended during the year.

Other Major Governmental Funds – The City reported five other major governmental funds in 2020:

REDA General Development Special Revenue Fund – The REDA General Development Special Revenue Fund has a total fund balance of \$8,701,686, which is restricted for community development. The net increase in fund balance during the year was \$381,319, with community development revenue and other financing sources exceeding spending in the current year.

REDA TIF Development Special Revenue Fund – The REDA TIF Development Special Revenue Fund has a total fund balance deficit of \$4,207,912, which will be reduced with the sale of property held for resale and future tax increments. The net increase in fund balance during the year was \$148,325. The City will need to consider other sources if future tax increments are not sufficient to cover the current fund balance deficit.

REDA Tax Increment Debt Service Fund – The REDA Tax Increment Debt Service Fund has a total fund balance of \$448,450. The net decrease in fund balance during the year was \$3,653,084, primarily due to the 2019A issuance of \$3,460,000 of General Obligation Tax Increment Refunding Bonds being used to refund General Obligation Tax Increment Bonds, Series 2010A in early 2020.

General Debt Service Fund – The General Debt Service Fund has a total fund balance of \$1,729,289, which is restricted for future debt payments. The net increase in fund balance during the year was \$18,050. Revenues and other financing sources exceeded current year expenditures as anticipated with approved debt financing plans.

PIR Capital Projects Fund – The PIR Capital Projects Fund has a total fund balance of \$6,624,052, which is dedicated to street reconstruction projects. The net increase in fund balance for the year was \$1,570,417. The results are in line with the City’s capital improvement plan. The current year increase includes unspent proceeds from bonds issued during the year for street projects.

Proprietary Funds – The City’s proprietary funds provide the same information found in the government-wide financial statements, but in more detail. Unrestricted net position of the City’s enterprise funds totaled \$15,022,644 at the end of the fiscal year.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets – At the end of 2020, the City had \$75,711,652 invested, net of depreciation, in a broad range of capital assets. This amount represents an increase of \$7,917,905, or 11.7 percent, from the prior year. During 2020, the City made expenditures for a variety of capital needs, including infrastructure improvements, for both governmental and business-type activities. The City records all capital assets, including infrastructure. Infrastructure includes roads, bridges, signals, and similar assets used by the citizens. The City’s infrastructure assets are being recorded at historical or estimated historical costs in the government-wide and proprietary fund financial statements. The City started a large multi-year water treatment project that significantly increased work in progress at year-end. Additional information on the City’s capital assets can be found in Note 5 in the notes to basic financial statements in this report.

Long-Term Debt – At year-end, the City had \$32,316,185 in long-term liabilities outstanding, excluding the total other post-employment benefits liability and net pension liability, versus \$26,306,856 last year, an increase of \$6,009,329. The increase was due to the issuance of the 2020A improvement bonds and 2020 water revenue note offset by continuing payments being made per the debt agreements. The City completed a refunding transaction in the current year that reduced TIF bonds outstanding. More detailed information about the City’s long-term debt is presented as Note 8 in the notes to basic financial statements.

The City carries an “AA+” bond rating from Standard & Poor’s.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGET –

Economic factors affect the preparation of the annual budgets. The City considered the following major factors when setting the fiscal 2021 budget:

- The City received additional local government aid (LGA) in 2020 as scheduled. The LGA formula and funding is expected to remain at the higher level for future years.
- The 2021 General Fund levy provides for a 2021 budget to allow compliance with the City’s unassigned fund balance policy.
- Investment income is expected to remain at low levels, due to the low interest rate environment.
- Extension of franchise fees to June 2023.
- There has been an increase in building permit activity the past couple of years and it is expected to continue at a moderate rate in 2021.
- Continued progress with the City’s Long-Term Infrastructure Replacement Program.

Additionally, the following actions were taken in regards to the current year budget that will be continued:

- Decision to maintain fund balance levels to offset any potential future state aid reductions to balance General Fund budgets.
- Increase in utility rates as anticipated with recent rate studies and ongoing reviews completed.
- Review of staffing as vacancies occur to determine options for organizational changes or service reductions.

REQUESTS FOR INFORMATION

This Comprehensive Annual Financial Report is designated to provide a general overview of the City's finances for all those with an interest in government finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City's Finance Director, 4100 Lakeview Avenue North, Robbinsdale, Minnesota 55422. This report is also available on the City's website at www.robbinsdalemn.com/finance.

READER'S NOTES:

MAJOR GOVERNMENTAL FUNDS

GENERAL FUND

The General Fund is established to account for the revenue and expenditures to carry out basic governmental services to the residents of the City, such as general government, community development, public safety, recreation, public works, and human services. Revenue is recorded by source; i.e., taxes, licenses and permits, intergovernmental, charges for services, fines and forfeitures, and miscellaneous revenue. General Fund expenditures are made primarily for current day-to-day operations and operating equipment and are recorded by major functional classifications and by operating departments. This fund accounts for all financial transactions not accounted for in another fund.

SPECIAL REVENUE FUNDS

Robbinsdale Economic Development Authority (REDA) General Development Fund

This fund was established by the REDA to promote development and/or redevelopment with the use of funds other than tax increment financing (TIF). Revenue is generated through the repayment of business assistance loans, sale of land and redeveloped houses, and a small property tax levy (limited by state statutes). Uses of these funds are at the discretion of the REDA Board.

REDA TIF Development Fund

This fund was established by the REDA to promote development and/or redevelopment through the use of TIF. Revenue is generated by the additional property taxes generated by new development facilitated by the REDA. Uses of these funds include land acquisition, demolition, and construction of public infrastructure.

DEBT SERVICE FUNDS

REDA Tax Increment Fund

This fund was established to account for the payment of principal and interest on the tax increment bond issue. The City issued tax increment bonds backed by the full faith and credit of the City on behalf of the REDA. The tax increment income generated by the REDA is pledged for the retirement of these bonds.

General Debt Service Fund

This fund was established to account for the repayment of principal and interest on obligations backed by the full faith and credit of the City, other than those accounted for in enterprise funds.

CAPITAL PROJECTS FUND

Permanent Improvement Revolving (PIR) Fund

The PIR Fund was established by the City Charter, Chapter 7, and designated per Section 315 of the City Code to finance the construction, maintenance, and/or repair of assessable and nonassessable improvements related to the City's Traffic and Transportation Program. It also accounts for funds allocated to the City as municipal state aid for highway construction.

READER'S NOTES:

CITY OF ROBBINSDALE

Reconciliation of the Balance Sheet
to the Statement of Net Position
Governmental Funds
December 31, 2020

Total fund balances – governmental funds \$ 22,261,862

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds.

Capital assets	49,766,595
Accumulated depreciation	(21,448,930)

Net pension assets are only recorded in the government-wide financial statements as they are not current financial resources to governmental funds.

384,764

Due to availability, certain revenues are not recognized under the governmental fund statements until received; however, under the full accrual in the government-wide Statement of Activities, revenues are recorded when earned regardless of when received.

Property taxes receivable	122,159
Special assessments receivable	1,257,852
Notes receivable	88,635

Internal service funds are used by management to charge the costs associated with central garage operations, central government services (general office, information technology, and government buildings), equipment replacement, risk insurance, and accrued benefit liabilities. The balances of these internal service funds are included in governmental activities in the Statement of Net Position.

11,346,054

Long-term liabilities, including accrued interest, are not due and payable in the current period and, therefore, are not reported in the governmental funds.

Total OPEB liability	(900,648)
Net pension liability	(5,046,582)
Bonds and notes payable, net of unamortized discounts and premiums	(11,396,121)
Accrued interest payable	(144,132)

Governmental funds do not report certain long-term amounts related to pensions that are included in net position.

Deferred outflows of resources – OPEB plan deferments	346,633
Deferred outflows of resources – pension plan deferments	1,858,602
Deferred inflows of resources – OPEB plan deferments	(25,942)
Deferred inflows of resources – pension plan deferments	(2,294,962)

Total net position – governmental activities \$ 46,175,839

READER'S NOTES:

CITY OF ROBBINSDALE

Reconciliation of the Statement of
Revenue, Expenditures, and Changes in Fund Balances
to the Statement of Activities
Governmental Funds
Year Ended December 31, 2020

Net change in fund balance – total governmental funds \$ (397,401)

Amounts reported for governmental activities in the Statement of Activities are different because:

Revenues in the government-wide Statement of Activities that do not provide current financial resources are not reported as revenues in the governmental funds.

Property taxes revenue	43,559
Special assessments revenue	(191,104)
Change in balances of notes receivable	(2,283)

Net change due to internal service funds are incorporated into the Statement of Activities.

Net change in operations (net of investment income)	968,993
Investment income recognized in the Statement of Activities	195,348

Governmental funds report capital outlays and improvements as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays and improvements exceeded depreciation in the current period.

Capital outlay and improvements	745,822
Depreciation expense	(1,444,735)

Net pension assets are included in net position, but are excluded from fund balances because they do not represent financial resources.

87,578

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any affect on net position. Also, governmental funds report the affect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.

Bonds issued (including premium on current year bonds)	(1,719,764)
Amortization of premiums and discounts	82,708
General obligation principal repayments	4,840,000

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Change in total OPEB liability	(367,276)
Change in net pension liability	(629,648)
Change in accrued interest payable	2,776

Governmental funds do not report additions or deletions to certain long-term amounts related to pensions that are included in the change in net position.

Deferred outflows of resources – OPEB plan deferments	311,206
Deferred outflows of resources – pension plan deferments	(742,673)
Deferred inflows of resources – OPEB plan deferments	2,055
Deferred inflows of resources – pension plan deferments	1,421,923

Change in net position – governmental activities \$ 3,207,084

READER'S NOTES:

PROPRIETARY FUNDS

Enterprise funds are established to account for the financing of self-supporting activities of governmental units, which render goods or services to the general public on a user charge basis.

MAJOR ENTERPRISE FUNDS

Below is a list of the major enterprise funds reported in the basic financial statements. These funds are included within the business-type activities section of the government-wide financial statements.

Water Utility Fund

The fund was established by the City Charter, Chapter 11, to account for the water system, owned and operated by the City.

Sanitary Sewer Utility Fund

The fund was established by the City Charter, Chapter 11, to account for the sanitary sewer system. The City is provided services, for a fee based on usage, by the Metropolitan Council Environmental Services (MCES). The City is responsible for all lateral lines, while the MCES is responsible for all trunk lines and the treatment and disposal of wastewater.

Storm Sewer Utility Fund

The City Council established the fund under provisions of the utility ordinance, to account for revenue collected and expenditures made to maintain the City's storm drainage system.

Solid Waste Removal Fund

The City Council established the fund, under provisions of the utility ordinance, to account for revenue collected and expenditures made to provide garbage removal on a city-wide basis.

Liquor Operations Fund

Minnesota Statutes allow municipalities to operate off-sale liquor establishments to control the sale of alcohol to minors. The City operates an off-sale liquor business to control this substance and as a source of revenue to the Capital Improvement Fund – Park Improvement Program.

Broadway Court Fund

This fund was established in 1999 to account for the rental operations of the Broadway Court Senior Housing Complex. Broadway Court is owned by the Robbinsdale Economic Development Authority (REDA), and operated by a management firm under contract with the REDA. The operations include rental of apartments to active seniors and the rental of retail space on the first level.

NONMAJOR ENTERPRISE FUND

Deputy Registrar Fund

The City Council established the fund in 1991 to segregate this self-supporting activity. The City has contractual agreements with the Minnesota Department of Vehicle Services and the Minnesota Department of Natural Resources to provide this service. The City collects a fee for each transaction processed. Excess earnings are generally used to support the General Fund.

CITY OF ROBBINSDALE

Notes to Basic Financial Statements December 31, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The City of Robbinsdale, Minnesota (the City) operates under the “Home Rule Charter” form of government pursuant to applicable Minnesota laws and statutes. The charter prescribes a manager-council form of organization. The governing body consists of a mayor and a four-member City Council. The City Council is elected by wards and the mayor is elected at large by voters of the City to serve four-year staggered terms.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City’s more significant accounting policies are described below:

B. Reporting Entity

In accordance with accounting principles generally accepted in the United States of America, these financial statements include the City (the primary government) and its component units. The City includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate from such. Component units are legally separate organizations for which elected officials of the City are financially accountable and are included within the basic financial statements of the City because of the significance of their operational or financial relationships with the City.

The City is considered financially accountable for a component unit if it appoints a voting majority of the organization’s governing body and it is able to impose its will on the organization by significantly influencing the programs, projects, activities, or level of services performed or provided by the organization, or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the City.

As a result of applying the component unit definition criteria above, certain organizations are presented in this report as blended component units (which are reported as if they were a part of the City) or related and jointly governed organizations (in which the relationship of the City with the entity is disclosed).

- 1. Blended Component Unit** – The Robbinsdale Economic Development Authority (REDA), which is governed by a five-member board consisting of the City Council with management of the City having operational responsibility for the REDA activities, is reported as a blended component unit. Although it is a legally separate entity from the City, it is reported as if it were a part of the City. This represents the only financial statements prepared for the REDA.
- 2. Related Organization** – The Robbinsdale Fire Department Relief Association (the Association) is organized as a nonprofit organization, legally separate from the City, to provide pension benefits to its members pursuant with Minnesota laws and statutes. Its Board of Directors is appointed by the membership of the Association, and the Association issues its own set of financial statements. All funding is conducted in accordance with applicable Minnesota Statutes, whereby state aids flow to the Association, the City’s contributions are determined by the Association, and the Association pays benefits to its members. Because the Association is fiscally independent of the City, the financial statements of the Association have not been included within the City’s reporting entity.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

3. **Jointly Governed Organizations** – Local Government Information Systems (LOGIS), a consortium of Minnesota municipalities that provides computerized data processing and support services to its members. LOGIS Insurance Group provides cooperative purchasing of health and life insurance benefits for approximately 45 government entities. LOGIS is legally separate from the City, as the City does not appoint a voting majority of the Board and the consortium is fiscally independent of the City. Therefore, it has not been incorporated into the City’s reporting entity. During the 2020 fiscal year, the City paid LOGIS approximately \$409,201 for services and equipment provided.

C. Government-Wide Financial Statement Presentation

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the reporting government as a whole, except for fiduciary activities. These statements include all of the financial activities of the City. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which significantly rely upon sales, fees, and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other internally directed revenues are reported as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes and special assessments are recognized as revenues in the fiscal year for which they are certified for levy. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, charges between the City’s enterprise funds and other functions are not eliminated, as that would distort the direct costs and program revenues reported in those functions. Depreciation expense is included in the direct expenses of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Fund Financial Statement Presentation

Separate fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements. Aggregated information for the remaining nonmajor funds is reported in a single column in the fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting, transactions are recorded in the following manner:

- 1. Revenue Recognition** – Revenue is recognized when it becomes measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days after year-end. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met. Proceeds of long-term debt are reported as other financing sources.

Major revenue that is susceptible to accrual includes property taxes, special assessments, intergovernmental revenue, charges for services, and interest earned on investments. Major revenue that is not susceptible to accrual includes licenses and permits, fees, and miscellaneous revenue. Such revenue is recorded only when received because it is not measurable until collected.

- 2. Recording of Expenditures** – Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt and other long-term liabilities, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as capital outlay expenditures in the governmental funds.

Proprietary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting, similar to the government-wide financial statements. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the City’s enterprise funds and internal service funds are charges to customers for sales and services. The operating expenses for the enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses that do not meet this definition are reported as nonoperating revenues and expenses.

Aggregated information for the internal service funds is reported in a single column in the proprietary fund financial statements. Because the principal user of the internal services is the City’s governmental activities, the financial statements of the internal service funds are consolidated into the governmental column when presented in the government-wide financial statements. The cost of these services is reported in the appropriate functional activity.

Fiduciary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting, similar to the government-wide financial statements. Since, by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the City these funds are excluded from the government-wide statements.

Description of Funds

The City reports the following major governmental funds:

General Fund – This is the City’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

REDA General Development Fund – This is a special revenue fund that accounts for all the general community development activities of the REDA that are not related to tax increment financing (TIF). The most significant sources of revenues in this special revenue fund include property taxes and charges for services.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

REDA TIF Development Fund – This is a special revenue fund that accounts for all the general community development activities of the REDA that are related to TIF. The most significant sources of revenues in this special revenue fund include tax increments and land sales.

REDA Tax Increment Fund – This is a debt service fund that accounts for all the activity associated with the REDA’s repayment of debt on outstanding TIF bonds issued through the City.

General Debt Service Fund – This is a debt service fund that was established to account for the repayment of principal and interest on obligations backed by the full faith and credit of the City, other than those accounted for in enterprise funds.

Permanent Improvement Revolving (PIR) Fund – This is a capital projects fund that accounts for the resources used related to the construction of traffic and transportation infrastructure (alleys, streets, sidewalks, street lights, and traffic lights).

The City reports the following major proprietary funds:

Water Utility Fund – This fund accounts for all financial resources relating to the City’s operations of its water distribution system. Services are on a user charge basis to all owners of property located within the City.

Sanitary Sewer Utility Fund – This fund accounts for all financial resources relating to the City’s operations of its sanitary sewer collection system. Services are on a user charge basis to all owners of property located within the City.

Storm Sewer Utility Fund – This fund accounts for all financial resources relating to the City’s operations of its storm water collection system. Services are on a user charge basis to all owners of property located within the City.

Solid Waste Removal Fund – This fund accounts for all financial resources relating to the City’s operations for garbage and recycling services to the residential properties of the City. Services are on a user charge basis to all residential property owners.

Liquor Operations Fund – This fund accounts for all financial resources relating to the operations of the City’s municipal off-sale liquor store.

Broadway Court Fund – This fund accounts for all financial resources relating to the rental operations of the Broadway Court Senior Housing Complex, which is owned by the REDA.

Additionally, the City also reports the following fund types:

Internal Service Funds – These funds account for the City’s central garage (fleet repair and maintenance), central services (general office, information technology, government building costs), equipment replacement, risk insurance costs, and the employee benefit accrual requirements. All services are provided to other departments on a cost-reimbursement basis.

Custodial Fund – The Deputy Registrar Fund is custodial in nature and is used to collect Minnesota license fees and pass them through to the state of Minnesota.

E. Cash and Investments

The City’s cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash balances from all funds are combined and invested to the extent available in commercial paper, insured certificates of deposit, and various government-backed securities. Earnings from such investments are allocated to the respective funds based on the average quarterly cash balance of each fund. Investments are stated at fair value, which is determined based on quoted market prices at year-end.

The City categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

See Note 3 for the City's recurring fair value measurements as of year-end.

F. Interfund Receivables and Payables

In the fund financial statements, activity between funds that is representative of lending or borrowing arrangements is reported as either "due to/from other funds" (current portion) or "advances to/from other funds." All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

G. Receivables

Utility and miscellaneous accounts receivable are reported at gross. Since the City is generally able to certify delinquent amounts to the county for collection as special assessments, no allowance for uncollectible accounts has been provided on current receivables. The City does record an allowance for the amount of utility receivables that remain delinquent after having been certified to the county. The only receivables not expected to be collected within one year are property taxes and special assessments receivable.

H. Property Taxes

Property tax levies are set by the City Council in December of each year, and are certified to Hennepin County for collection in the following year. In Minnesota, counties act as collection agents for all property taxes. The county spreads the levies over all taxable property. Such taxes become a lien on January 1 and are recorded as receivables by the City on that date. Real property taxes may be paid by taxpayers in two equal installments on May 15 and October 15. Personal property taxes are due in full on May 15. The county provides tax settlements to cities and other taxing districts three times a year; in July, December, and January.

Property taxes are recognized as revenue in the year levied in the government-wide financial statements and proprietary fund financial statements. In the governmental fund financial statements, taxes are recognized as revenue when received in cash or within 60 days after year-end. Taxes which remain unpaid on December 31 are classified as delinquent taxes receivable, and are offset by deferred inflows of resources in the governmental fund financial statements, because they are not available to finance current expenditures. No allowance for uncollectible taxes has been provided because such amounts are not expected to be material.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Special Assessments Receivable

Special assessments are levied against the benefited properties for the assessable costs of special assessment improvement projects in accordance with state statutes. The City usually adopts the assessment rolls when the individual projects are complete or substantially complete, except for road reconstruction projects. The county handles collection of annual installments (including interest) in the same manner as property taxes. Property owners are allowed to prepay total future installments without interest or prepayment penalties. Special assessments are recorded as receivables upon certification to the county. Special assessments are recognized as revenue in the year levied in the government-wide financial statements and proprietary fund financial statements. In the governmental fund financial statements, special assessments are recognized as revenue when received in cash or within 60 days after year-end. Governmental fund special assessments receivable which remain unpaid on December 31 are offset by a deferred inflow of resources in the governmental fund financial statements.

J. Inventories and Prepaid Items

Inventories of supplies are valued at cost, while inventories held for resale are valued at the lower of cost or market value, on a first-in, first-out method. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of inventories and prepaid items is recorded as expenses/expenditures when consumed rather than when purchased.

K. Property Held for Resale

Property is acquired by the REDA for redevelopment purposes. Property held for resale is reported as an asset in the government-wide and fund financial statements. These assets are reported at the lower of cost or acquisition value.

L. Capital Assets

Capital asset acquisition costs are recorded as expenditures in the City's governmental fund financial statements, which use the modified accrual basis of accounting. Capital assets are capitalized within the City's government-wide financial statements and proprietary fund financial statements, which use the full accrual basis of accounting. Infrastructure assets reported by governmental activities include assets placed in service in 1980 or later.

The City defines capital assets as assets with an initial, individual cost of more than \$5,000, and an estimated useful life in excess of two years. All capital assets are recorded at historical cost or estimated historical cost if actual cost was not available. Donated capital assets are valued at the acquisition value as of the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Land and work in progress are not depreciated.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The capital assets of the City are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and structures	25–40
Utility system	5–100
Traffic and transportation	5–40
Park system infrastructure	5–40
Other improvements	5–30
Leasehold improvements	10
Mobile equipment	3–25
Machinery and office equipment	3–15

M. Compensated Absences

The City compensates employees upon termination for all unused vacation and unused sick leave up to 960 hours based on years of service criteria as follows:

- After 2 years – 15 percent of accumulated sick leave
- After 8 years – 25 percent of accumulated sick leave
- After 13 years – 35 percent of accumulated sick leave
- After 17 years – 40 percent of accumulated sick leave
- After 20 years – 50 percent of accumulated sick leave

Employees are compensated for unused sick leave in excess of 960 hours at the rate of one-half time. Vacation and sick leave earnings and the corresponding liability are recorded in the Benefit Accrual Internal Service Fund, which charges the General Fund and other city funds. The liability is reported within governmental activities of the government-wide Statement of Net Position as a long-term liability.

N. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, if material, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are expensed in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

O. Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, statements of financial position, or balance sheets, will sometimes report separate sections for deferred outflows or inflows of resources. These separate financial statement elements represent a consumption or acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) or an inflow of financial resources (revenue) until then.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The City reports deferred outflows of resources related to the deferred charge on refunding reported in the government-wide and proprietary fund Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

The City also reports deferred outflows and inflows of resources related to pensions and other post-employment benefits (OPEB) in the government-wide and proprietary fund Statement of Net Position. These deferred outflows and inflows result from differences between expected and actual experience, changes in proportion, changes of assumptions, differences between projected and actual investment earnings, and contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension and OPEB standards.

Unavailable revenue, arises only under the modified accrual basis of accounting and, therefore, is reported only in the governmental funds Balance Sheet. The governmental funds report unavailable revenue from three sources: property taxes, special assessments, and notes receivable not collected within 60 days of year-end. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

P. State-Wide Pension Plans

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from the PERA's fiduciary net position have been determined on the same basis as they are reported by the PERA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments, and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Q. Net Position Classifications and Flow Assumptions

In the government-wide and proprietary fund financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position is displayed in three components:

- **Net Investment in Capital Assets** – Consists of capital assets, net of accumulated depreciation, reduced by any outstanding debt attributable to acquire capital assets.
- **Restricted Net Position** – Consists of net position restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments, or enabling legislation.
- **Unrestricted Net Position** – All remaining net position that does not meet the definition of “restricted” or “net investment in capital assets.”

The City applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

R. Fund Balance Classifications and Flow Assumptions

In the governmental fund financial statements, fund balance is reported in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- **Nonspendable** – Consists of amounts that are not in spendable form, such as prepaid items, inventory, and other long-term assets.
- **Restricted** – Consists of amounts where there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments, or enabling legislation.
- **Committed** – Consists of internally imposed constraints that are established by resolution of the City Council. Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- **Assigned** – Consists of internally imposed constraints. These constraints consist of amounts intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to City Council resolution, the city manager or finance director are authorized to establish assignments of fund balance.
- **Unassigned** – The residual classification for the General Fund, which also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to first use restricted resources, and then use unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use, it is the City's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

S. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

T. Statement of Cash Flows

For purposes of the Statement of Cash Flows, the City considers all highly liquid debt instruments with an original maturity from the time of purchase by the City of three months or less to be cash equivalents. The proprietary funds' portion in the government-wide cash and investment management pool is considered to be cash equivalent.

U. Prior Period Adjustments

During the year ended December 31, 2020, the City reported two prior period adjustments. The City's proprietary funds and the related business-type activities reported prior period adjustments to correct previously reported intergovernmental revenues and properly record prepaid expenses. These prior period adjustments reduced beginning equity in the Water Utility Fund by \$342,545 and increased beginning equity in the Sanitary Sewer Utility Fund by \$77,017. The net impact was a decrease of \$265,528 in beginning net position for business-type activities.

NOTE 2 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Budgets are legally adopted on a basis consistent with accounting principles generally accepted in the United States of America for the General Fund and the REDA special revenue funds. The City follows the procedures below in establishing the budgetary data reflected in the basic financial statements:

- The city manager submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budgets include proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- The budgets are legally enacted through the passage of resolutions.
- The City Council may authorize transfers of budgeted amounts between departments, at the budgetary control level.

B. Deficit Fund Equity

The following fund had a deficit fund balance as of December 31, 2020:

- REDA TIF Development Special Revenue Fund – \$4,207,912

The deficit for the REDA TIF Development Special Revenue Fund is expected to be eliminated over time through the collection of tax increment revenues, which will reduce the advances from other funds.

NOTE 3 – DEPOSITS AND INVESTMENTS

A. Components of Cash and Investments

Cash and investments at year-end consist of the following:

Deposits	\$	906,403
Investments		43,919,648
Cash on hand		<u>11,546</u>
Total	\$	<u><u>44,837,597</u></u>

Cash and investments are presented in the financial statements as follows:

Statement of Net Position		
Cash and investments	\$	44,677,160
Statement of Fiduciary Net Position – Fiduciary Fund		
Cash and investments		<u>160,437</u>
Total	\$	<u><u>44,837,597</u></u>

NOTE 3 – DEPOSITS AND INVESTMENTS (CONTINUED)

B. Deposits

In accordance with applicable Minnesota Statutes, the City maintains deposits at depository banks authorized by the City Council, including checking and savings accounts.

The following is considered the most significant risk associated with deposits:

Custodial Credit Risk – In the case of deposits, this is the risk that in the event of a bank failure, the City’s deposits may be lost.

Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The fair value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issued of U.S. governmental agencies; general obligations rate “A” or better; revenue obligations rate “AA” or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The City has no additional deposit policies addressing custodial credit risk.

At year-end, the carrying amount of the City’s deposits was \$906,403, while the balance on the bank records was \$1,199,427. At December 31, 2020, all deposits were fully covered by federal deposit insurance, surety bonds, or by collateral held by the City’s agent in the City’s name.

C. Investments

The City has the following investments at year-end:

Investment Type	Credit Risk		Fair Value Measurement Using	Interest Risk – Maturity Duration in Years			Total
	Rating	Agency		Less Than 1	1 to 5	More Than 5	
U.S. government agency securities	AA	S&P	Level 2	\$ –	\$ 787,725	\$ –	\$ 787,725
State and local obligations	AAA	Moody’s	Level 2	–	327,535	728,225	1,055,760
State and local obligations	AA	Moody’s	Level 2	1,380,928	1,685,633	2,043,109	5,109,670
State and local obligations	A	Moody’s	Level 2	–	502,775	215,090	717,865
State and local obligations	AAA	S&P	Level 2	–	1,730,008	564,703	2,294,711
State and local obligations	AA	S&P	Level 2	1,425,487	6,830,894	1,808,582	10,064,963
State and local obligations	A	S&P	Level 2	107,274	1,101,011	–	1,208,285
Negotiable certificates of deposit	N/A	N/A	Level 2	4,506,151	4,975,013	–	9,481,164
U.S. bankers acceptance	N/A	N/A	Level 2	103,125	–	–	103,125
				<u>\$ 7,522,965</u>	<u>\$ 17,940,594</u>	<u>\$ 5,359,709</u>	30,823,268
Investment pools/mutual funds							
First American Government Obligations Fund	AAA	S&P	Level 1	N/A	N/A	N/A	<u>13,096,380</u>
Total							<u>\$ 43,919,648</u>

N/A – Not Applicable

NOTE 3 – DEPOSITS AND INVESTMENTS (CONTINUED)

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – For investments, this is the risk that in the event of a failure of the counterparty to any investment transaction (typically a broker-dealer) the City would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City’s investment policies do not further address this risk, but the City limits its exposure by holding the majority of its investments in a trust account with a major bank’s corporate trust department. Under this scenario, investments are delivered to the City’s Trust Account and then payment is released to the broker-dealer.

Credit Risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statutes limit the City’s investments to direct obligations or obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that receive the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated “A” or better; revenue obligations rated “AA” or better; general obligations of the Minnesota Housing Finance Agency rated “A” or better; bankers’ acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a “depository” by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, that are a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities brokers-dealers. The City’s investment policies do not further address credit risk.

Concentration Risk – This is the risk associated with investing a significant portion of the City’s investments (considered 5.0 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as treasuries), investment pools, and mutual funds. The City’s investment policies do not limit the concentration of investments.

Interest Rate Risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The City’s investment policies do not further address limiting the duration of investments.

NOTE 4 – NOTES RECEIVABLE

A. Industrial Development Revenue Bond Fees Receivable

Since 1983, the City has issued industrial development revenue bonds on behalf of qualified entities. The bond agreements require the qualified entities to pay an issuance fee to the City that is spread over the life of the bonds. The issuance fee payments are structured as follows:

- One-half of one percent of the principal amount of the bonds issued paid at the time of issuance and the first anniversary date.

NOTE 4 – NOTES RECEIVABLE (CONTINUED)

- Beginning in year three, one-eighth percent of the outstanding principal of the bonds paid annually to the City (this relates to all bonds issued after January 1, 2003).
- Beginning in year three, one-tenth percent of the outstanding principal of the bonds paid annually to the City (this relates to all bonds issued prior to January 1, 2003 and includes any refinancing of bonds issued prior to January 1, 2003).

As of December 31, 2020, the City had \$417,180 in outstanding receivables related to the issuance of industrial development revenue bonds.

B. Robbinsdale Economic Development Authority (REDA) – Notes Receivable

Periodically, the REDA issues loans to qualified entities to be used in the redevelopment of their property. As of December 31, 2020, the REDA had \$88,635 in outstanding notes.

NOTE 5 – CAPITAL ASSETS

Capital asset activity for the year was as follows:

	Beginning Balance	Additions	Retirements	Transfers and Completed Construction	Ending Balance
Governmental activities					
Capital assets, not depreciated					
Land	\$ 1,053,033	\$ 107,000	\$ –	\$ –	\$ 1,160,033
Work in progress	187,836	568,955	–	(68,989)	687,802
Total capital assets, not depreciated	1,240,869	675,955	–	(68,989)	1,847,835
Capital assets, depreciated					
Buildings and structures	6,741,134	–	–	–	6,741,134
Traffic and transportation	33,795,630	–	–	–	33,795,630

Mobile equipment	(248,816)	(60,290)	–	–	(309,106)
Machinery and office equipment	(624,350)	(38,078)	–	–	(662,428)
Total accumulated depreciation	(16,371,493)	(782,162)	–	–	(17,153,655)
Net capital assets, depreciated	32,898,294	(512,469)	–	371,276	32,757,101
Total capital assets, net	\$ 33,964,857	\$ 8,201,858	\$ –	\$ –	\$ 42,166,715

Depreciation expense was charged to functions/programs of the City as follows:

Governmental activities	
General government	\$ 53,798
Community development	5,614
Public safety	72,332
Recreation	396,949
Public works	916,042
Capital assets held by the City's internal service funds are charged to the various functions based on their usage of the assets	507,806
Total depreciation expense – governmental activities	<u>\$ 1,952,541</u>
Business-type activities	
Water utility	\$ 166,536
Sanitary sewer utility	238,089
Storm sewer utility	185,071
Liquor operations	14,239
Broadway Court	178,227
Total depreciation expense – business-type activities	<u>\$ 782,162</u>

NOTE 6 – RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. In order to protect against these risks of loss, the City purchases commercial insurance through the League of Minnesota Cities Insurance Trust (LMCIT), a public entity risk pool. This pool currently operates common risk management and insurance programs for municipal entities. The City pays an annual premium to the LMCIT for its insurance coverage. The LMCIT is self-sustaining through commercial companies for excess claims. The City is covered through the pool for any claim incurred but unreported; however, it retains risk for the deductible portion of its insurance policies.

The Risk Insurance Fund was established to account for deductibles and other costs associated with the risk-of-loss that the City is unable to insure for because of restrictions or exclusions on the policies. It has also been established to fund any potential liability that may be assessed to it by the LMCIT Program. The fund is accounted for as an internal service fund where assets are set aside for risk management, insurance, administration, and claims settlement.

Fund liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities will include an amount for claims that have been incurred, but not reported (IBNR).

The Risk Insurance Fund collects a service charge from user funds/departments and pays insurance premiums and claims. Charges for services during 2020 were \$665,237. At December 31, 2020, 2019, and 2018, there were no significant IBNR claims.

The City's workers' compensation insurance policy is retrospectively rated. With this type of policy, final premiums are determined after loss experience workers' compensation rates and salaries for the year are known. The City also purchases fidelity bonds for employees in key positions.

During the year ended December 31, 2020, there were no significant reductions in insurance coverage from the prior year. Settled claims have not exceeded the City's commercial coverage in any of the past three years.

NOTE 7 – OPERATING LEASES

The City leases space for the Robbinsdale Wine & Spirits Liquor Store, which is located in Robbinsdale Hy-Vee Food and Drug. The agreement commenced September 18, 2018, and provides for minimum annual lease payments of \$144,900 and sharing of common expenses and expires September 2028. The lease has an option for two additional five-year terms.

The rent expense (including common expenses) for the year ended December 31, 2020 was \$170,910.

NOTE 8 – LONG-TERM DEBT

The City's long-term debt issues and transactions were as follows:

General Obligation Bonds, Certificates, and Notes – The City periodically issues bonds, certificates, and notes in accordance with Minnesota Statutes and they are backed by their full faith, credit, and taxing powers.

Governmental Activities

- **2012 General Obligation Street Improvement Bonds** – In 2012, the City issued \$1,470,000 in General Obligation Street Improvement Bonds to finance the cost of street reconstruction within the City. The bonds mature in February 2023 and have a net interest cost of 1.38 percent.
- **2013 General Obligation Street Reconstruction Bonds** – In 2013, the City issued \$1,585,000 in General Obligation Street Reconstruction Bonds to finance the cost of street reconstruction within the City. The bonds mature in February 2024 and have a net interest cost of 1.85 percent.
- **2015 General Obligation Street Improvement Bonds** – In 2015, the City issued \$3,630,000 in General Obligation Street Improvement Bonds to finance the cost of street reconstruction within the City. The bonds mature in February 2026 and have a net interest cost of 1.49 percent.
- **2017 General Obligation Street Improvement Bonds** – In 2017, the City issued \$720,000 in General Obligation Street Improvement Bonds to finance the cost of street reconstruction within the City. The bonds mature in February 2028 and have a net interest cost of 1.78 percent.
- **2018 General Obligation Street Improvement Bonds** – In 2018, the City issued \$760,000 in General Obligation Street Improvement Bonds to finance the cost of street reconstruction within the City. The bonds mature in February 2029 and have a net interest cost of 2.95 percent.
- **2018 General Obligation Equipment Certificates** – In 2018, the City issued \$1,000,000 in General Obligation Equipment Certificates to finance the cost of capital equipment for the City. The certificates mature in February 2028 and have a net interest cost of 2.95 percent.
- **2019 General Obligation Tax Increment Bonds** – In 2019, the City issued \$3,460,000 in General Obligation Tax Increment Bonds to redeem, in advance of their stated maturities, the 2021 through 2032 maturities of the City's 2010 General Obligation Tax Increment Bonds, on the February 1, 2020 call date of the refunded issue. This current refunding will reduce the City's future debt service payments by \$478,783 and result in present value savings of \$429,558. The bonds mature in February 2032 and have a net interest cost of 1.94 percent.
- **2020 General Obligation Street Improvement Bonds** – In 2020, the City issued \$830,000 in General Obligation Street Improvement Bonds to finance the cost of street reconstruction within the City. The bonds mature in February 2032 and have a net interest cost of 0.89 percent.
- **2020 General Obligation Equipment Certificates** – In 2020, the City issued \$615,000 in General Obligation Equipment Certificates to finance the cost of capital equipment for the City. The certificates are fully matured in February 2030 and have a net interest cost of 0.55 percent.

NOTE 8 – LONG-TERM DEBT (CONTINUED)

Business-Type Activities

- **2012 General Obligation Utility Revenue Bonds** – In 2012, the City issued \$2,560,000 in General Obligation Utility Revenue Bonds to finance a variety of utility system improvements and equipment costs. The bonds mature in February 2023 and have a net interest of 1.38 percent. These bonds are payable from the net revenues of the water utility, sanitary sewer utility, and storm sewer utility enterprise activities.
- **2013 General Obligation Utility Revenue Bonds** – In 2013, the City issued \$2,815,000 in General Obligation Utility Revenue Bonds to finance a variety of utility system improvements and equipment costs. The bonds mature in February 2024 and have a net interest of 1.85 percent. These bonds are payable from the net revenues of the water utility, sanitary sewer utility, and storm sewer utility enterprise activities.
- **2015 General Obligation Utility Revenue Bonds** – In 2015, the City issued \$2,805,000 in General Obligation Utility Revenue Bonds to finance a variety of utility system improvements and equipment costs. The bonds mature in February 2026 and have a net interest of 1.49 percent. These bonds are payable from the net revenues of the water utility, sanitary sewer utility, and storm sewer utility enterprise activities.
- **2017 General Obligation Utility Revenue Bonds** – In 2017, the City issued \$2,390,000 in General Obligation Utility Revenue Bonds to finance a variety of utility system improvements and equipment costs. The bonds mature in February 2028 and have a net interest of 1.78 percent. These bonds are payable from the net revenues of the water utility, sanitary sewer utility, and storm sewer utility enterprise activities.
- **2018 General Obligation Utility Revenue Bonds** – In 2018, the City issued \$1,155,000 in General Obligation Utility Revenue Bonds to finance a variety of utility system improvements and equipment costs. The bonds mature in February 2029 and have a net interest of 2.95 percent. These bonds are payable from the net revenues of the water utility, sanitary sewer utility, and storm sewer utility enterprise activities.
- **2020 General Obligation Utility Revenue Bonds** – In 2020, the City issued \$4,035,000 in General Obligation Utility Revenue Bonds to finance a variety of utility system improvements and equipment costs. The bonds mature in February 2036 and have a net interest of 1.34 percent. These bonds are payable from the net revenues of the water utility, sanitary sewer utility, and storm sewer utility enterprise activities.
- **2020 General Obligation Water Revenue Note** – In 2020, the City drew funds totaling \$6,064,828 for its General Obligation Water Revenue Note issued through a loan agreement with the Minnesota Public Facilities Authority. The note was obtained to finance the City’s water treatment plant project and is drawn down on a reimbursement basis. The total available balance for the City to draw is \$36,430,904. The note bears an interest rate of 1.00 percent and final maturity on the note is August 2040. This note is payable from the net revenues of the water utility enterprise activities.

The REDA periodically issues bonds in accordance with Minnesota Statutes and they are backed by the City’s full faith, credit, and taxing power.

- **2015 Housing Revenue Refunding Bonds** – In 2015, the REDA issued \$3,670,000 in Housing Revenue Refunding Bonds, which are being serviced by the Broadway Court Enterprise Operation of the REDA. The refunding bonds were issued to refund the 2006A Housing Revenue Refunding Bonds (\$4,730,000). The bonds mature in February 2029 and have a net interest of 2.09 percent.

NOTE 8 – LONG-TERM DEBT (CONTINUED)

CONDUIT DEBT OBLIGATIONS

On occasion, the City has issued industrial revenue bonds to provide financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

The bonds and interest are payable solely out of the mortgage loan proceeds, certain fees, revenues, and other amounts derived from mortgage loans and certain reserve funds. The bonds do not constitute any indebtedness, liability, general or moral obligation, or pledge of the faith or loan of credit of the City, state of Minnesota, or any political subdivision of either thereof.

As of December 31, 2020, the City had authorized the issuance of industrial revenue bonds as shown in the following schedule:

Description of Issue	Issue Date	Maturity Date	Outstanding December 31, 2020
Healthcare Facilities Revenue Bonds North Memorial Health Care – Series 2017	12/05/2017	05/01/2026	\$ 33,590,000

NOTE 9 – COMPONENTS OF FUND BALANCE

A. Classifications

At December 31, 2020, a summary of the City’s governmental fund balance classifications are as follows:

B. Minimum Unassigned Fund Balance Policy

The City Council has formally adopted a fund balance policy regarding the minimum unassigned fund balance for the General Fund. The policy establishes a minimum unassigned General Fund balance of 40.0–50.0 percent of the subsequent year’s General Fund budgeted expenditures. At December 31, 2020, the unassigned fund balance of the General Fund was 49.1 percent of the subsequent year’s General Fund budgeted expenditures.

NOTE 10 – INTERFUND TRANSACTIONS

A. Interfund Transfers

During 2020, the following interfund transfers took place:

Transfers Out	Transfers In									Total
	Governmental Funds				Proprietary Funds					
	General	REDA General Development	Permanent Improvement Revolving	Nonmajor Governmental	Water Utility	Storm Sewer Utility	Liquor Operation	Deputy Registrar – Nonmajor	Internal Service Funds

Deputy Registrar – Nonmajor	b –	–	–	b 50,000	–	–	–	–	–	50,000
Total transfers	\$ 1,026,441	\$ 245,512	\$ 150,000	\$ 450,000	\$ 4,024	\$ 725	\$ 9,330	\$ 32,687	\$ 1,275,479	\$ 3,194,198

Transfers were completed for the following reasons:

- a – Transfer resources for operating, capital, and debt service-related spending
- b – Budgeted transfers using excess earnings to fund operating and capital needs

B. Advances To and From Other Funds

The REDA General Development Fund has advanced \$4,271,311 to the REDA TIF Development Fund. The advance will be paid back over 20 years through the collection of TIF property tax revenues from the redeveloped properties. No interest was charged on advances in 2020.

To the extent possible, interfund transactions are eliminated in the government-wide financial statements.

NOTE 11 – PENSION PLANS SUMMARY

The City has reported the following balances for defined benefit pension plans of the City:

	PERA Plans			FRA	City Total
	GERF	PEPFF	Subtotal		
Net pension asset	\$ –	\$ –	\$ –	\$ 384,764	\$ 384,764
Deferred outflows of pension resources	\$ 367,035	\$ 1,408,582	\$ 1,775,617	\$ 197,866	\$ 1,973,483
Net pension liability	\$ 3,537,318	\$ 2,616,443	\$ 6,153,761	\$ –	\$ 6,153,761
Deferred inflows of pension resources	\$ 142,062	\$ 1,838,743	\$ 1,980,805	\$ 358,623	\$ 2,339,428
Pension revenue	\$ 9,490	\$ 36,831	\$ 46,321	\$ 79,518	\$ 125,839
Pension expense	\$ 188,202	\$ 333,306	\$ 521,508	\$ 208,044	\$ 729,552

NOTE 12 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE

A. Plan Description

The City participates in the following cost-sharing, multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association (PERA) of Minnesota. The PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. The PERA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code (IRC).

1. General Employees Retirement Fund (GERF)

All full-time and certain part-time employees of the City are covered by the GERF. The GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

2. Public Employees Police and Fire Fund (PEPFF)

The Public Employees Police and Fire Fund (PEPFF), originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the PEPFF also covers police officers and firefighters belonging to local relief associations that elected to merge with and transfer assets and administration to the PERA.

B. Benefits Provided

The PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statutes and can only be modified by the State Legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

1. GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for the PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated Plan members is 1.2 percent of average salary for each of the first 10 years of service, and 1.7 percent of average salary for each additional year. Under Method 2, the accrual rate for Coordinated Plan members is 1.7 percent of average salary for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90, and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at age 66.

NOTE 12 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

The benefit increases are provided to benefit recipients each January. The post-retirement increase will be equal to 50.0 percent of the cost of living adjustment (COLA) announced by the Social Security Administration, with a minimum increase of at least 1.0 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase, will receive the full increase. For recipients receiving the annuity or benefit for at least one month, but less than a full year as of the June 30 before the effective date of the increase, will receive a reduced prorated increase. For members retiring on January 1, 2024 or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

2. PEPFF Benefits

Benefits for the PEPFF members first hired after June 30, 2010 but before July 1, 2014, vest on a prorated basis from 50.0 percent after five years, up to 100.0 percent after 10 years of credited service. Benefits for the PEPFF members first hired after June 30, 2014 vest on a prorated basis from 50.0 percent after 10 years, up to 100.0 percent after 20 years of credited service. The annuity accrual rate is 3.0 percent of average salary for each year of service. For Police and Fire Plan members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

Benefit increases are provided to benefit recipients each January. The post-retirement increase will be fixed at 1.0 percent. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase, will receive the full increase. For recipients receiving the annuity or benefit for at least 25 months, but less than 36 months as of the June 30 before the effective date of the increase, will receive a reduced prorated increase.

C. Contributions

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the State Legislature.

1. GERF Contributions

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2020, and the City was required to contribute 7.50 percent for Coordinated Plan members. The City's contributions to the GERF for the year ended December 31, 2020, were \$336,324. The City's contributions were equal to the required contributions as set by state statutes.

2. PEPFF Contributions

Police and fire member's contribution rates increased from 11.30 percent of pay to 11.80 percent and employer rates increased from 16.95 percent to 17.70 percent on January 1, 2020. The City's contributions to the PEPFF for the year ended December 31, 2020, were \$410,778. The City's contributions were equal to the required contributions as set by state statutes.

NOTE 12 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

D. Pension Costs

1. GERF Pension Costs

At December 31, 2020, the City reported a liability of \$3,537,318 for its proportionate share of the GERF's net pension liability. The City's net pension liability reflected a reduction, due to the state of Minnesota's contribution of \$16.0 million. The state of Minnesota is considered a nonemployer contributing entity and the state's contribution meets the definition of a special funding situation. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by the PERA during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020, relative to the total employer contributions received from all of the PERA's participating employers. The City's proportionate share was 0.0590 percent at the end of the measurement period and 0.0574 percent for the beginning of the period.

The amount recognized by the City as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the City were as follows:

City's proportionate share of the net pension liability	\$ 3,537,318
State's proportionate share of the net pension liability associated with the City	\$ 109,223

For the year ended December 31, 2020, the City recognized pension expense of \$178,712 for its proportionate share of the GERF's pension expense. In addition, the City recognized an additional \$9,490 as pension expense (and grant revenue) for its proportionate share of the state of Minnesota's contribution of \$16.0 million to the GERF.

At December 31, 2020, the City reported its proportionate share of the GERF's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 31,360	\$ 13,389
Changes in actuarial assumptions	–	128,673
Differences between projected and actual investment earnings	72,784	–
Changes in proportion	88,954	–
Contributions paid to the PERA subsequent to the measurement date	173,937	–
Total	<u>\$ 367,035</u>	<u>\$ 142,062</u>

NOTE 12 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

A total of \$173,937 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the year ending December 31, 2021. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	Pension Expense Amount
2021	\$ (154,745)
2022	\$ 31,099
2023	\$ 89,225
2024	\$ 85,457

2. PEPFF Pension Costs

At December 31, 2020, the City reported a liability of \$2,616,443 for its proportionate share of the PEPFF's net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by the PERA during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020, relative to the total employer contributions received from all of the PERA's participating employers. The City's proportionate share was 0.2031 percent at the end of the measurement period and 0.2101 percent for the beginning of the period.

The state of Minnesota also contributed \$13.5 million to the Police and Fire Fund in the plan fiscal year ended June 30, 2020. The contribution consisted of \$4.5 million in direct state aid that does meet the definition of a special funding situation and \$9.0 million in fire state aid that does not meet the definition of a special funding situation. The \$4.5 million direct state was paid on October 1, 2019. Thereafter, by October 1 of each year, the state will pay \$9.0 million to the Police and Fire Fund until full funding is reached or July 1, 2048, whichever is earlier. The \$9.0 million in fire state aid will continue until the fund is 90.0 percent funded, or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90.0 percent funded, whichever occurs later.

As a result, the state of Minnesota is included as a nonemployer contributing entity in the Police and Fire Retirement Plan Schedule of Employer Allocations and Schedule of Pension Amounts by Employer, Current Reporting Period Only (pension allocation schedules) for the \$4.5 million in direct state aid. Police and Fire Plan employers need to recognize their proportionate share of the state of Minnesota's pension expense (and grant revenue) under GASB Statement No. 68 special funding situation accounting and financial reporting requirements. For the year ended December 31, 2020, the City recognized pension expense of \$314,350 for its proportionate share of the Police and Fire Plan's pension expense. In addition, the City recognized an additional \$18,956 as pension expense (and grant revenue) for its proportionate share of the state of Minnesota's contribution of \$4.5 million to the Police and Fire Fund.

NOTE 12 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

The amount recognized by the City as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the City were as follows:

City’s proportionate share of the net pension liability	\$ 2,616,443
State’s proportionate share of the net pension liability associated with the City	\$ 61,616

The state of Minnesota is not included as a nonemployer contributing entity in the Police and Fire Pension Plan pension allocation schedules for the \$9.0 million in fire state aid. The City also recognized \$17,875 for the year ended December 31, 2020, as revenue and an offsetting reduction of net pension liability for its proportionate share of the state of Minnesota’s on-behalf contributions to the Police and Fire Fund.

At December 31, 2020, the City reported its proportionate share of the PEPFF’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 116,137	\$ 121,436
Changes in actuarial assumptions	856,948	1,613,595
Difference between projected and actual investment earnings	85,758	–
Changes in proportion	139,022	103,712
Contributions paid to the PERA subsequent to the measurement date	<u>210,717</u>	<u>–</u>
Total	<u>\$ 1,408,582</u>	<u>\$ 1,838,743</u>

A total of \$210,717 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2021. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending December 31,</u>	<u>Pension Expense Amount</u>
2021	\$ (160,582)
2022	\$ (697,533)
2023	\$ 118,136
2024	\$ 117,866
2025	\$ (18,765)

NOTE 12 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

E. Actuarial Assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

	GERF	PEPFF
Inflation	2.25% per year	2.50% per year
Active member payroll growth	3.00% per year	3.25% per year
Investment rate of return	7.50%	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on Pub-2010 General Employee Mortality Table for the GERF Plan and RP-2014 tables for the PEPFF Plan for males or females, as appropriate, with slight adjustments to fit the PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25 percent per year for the GERF, and 1.00 percent per year for the PEPFF.

Actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the GERF was completed in 2019. The assumption changes were adopted by the Board and become effective with the July 1, 2020 actuarial valuation. The most recent four-year experience study for the PEPFF was completed in 2020. The recommended assumptions for those plans were adopted by the Board and will be effective with the July 1, 2021 actuarial valuations if approved by the State Legislature.

The following changes in actuarial assumptions and plan provisions occurred in 2020:

1. GERF

CHANGES IN ACTUARIAL ASSUMPTIONS

- The price inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25 percent less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years two through five, and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.

NOTE 12 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

- The base mortality table for healthy annuitants and employees was changed from the RP-2014 Table to the Pub-2010 General Mortality Table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 Disabled Annuitant Mortality Table to the Pub-2010 General/Teacher Disabled Annuitant Mortality Table, with adjustments.
- The mortality improvement scale was changed from MP-2018 to MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100.00 percent joint and survivor option changed from 35.00 percent to 45.00 percent. The assumed number of married female new retirees electing the 100.00 percent joint and survivor option changed from 15.00 percent to 30.00 percent. The corresponding number of married new retirees electing the life annuity option was adjusted accordingly.

CHANGES IN PLAN PROVISIONS

- Augmentation for current privatized members was reduced to 2.00 percent for the period July 1, 2020 through December 31, 2023, and zero percent thereafter. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2. PEPFF

CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2018 to MP-2019.

The Minnesota State Board of Investment, which manages the investments of the PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best-estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	35.50 %	5.10 %
International stocks	17.50	5.30 %
Bonds (fixed income)	20.00	0.75 %
Alternative assets (private markets)	25.00	5.90 %
Cash	2.00	– %
Total	100.00 %	

NOTE 12 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

F. Discount Rate

The discount rate used to measure the total pension liability in 2020 was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net positions of the GERS and the PEPFF were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability Sensitivity

The following table presents the City's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease in Discount Rate 6.50%	Discount Rate 7.50%	1% Increase in Discount Rate 8.50%
City's proportionate share of the GERS net pension liability	\$ 5,669,096	\$ 3,537,318	\$ 1,778,775
City's proportionate share of the PEPFF net pension liability	\$ 5,214,946	\$ 2,616,443	\$ 466,636

H. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in a separately issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the PERA website at www.mnpera.org; by writing to the PERA at 60 Empire Drive, Suite 200, St. Paul, Minnesota 55103; or by calling (651) 296-7460 or (800) 652-9026.

NOTE 13 – DEFINED CONTRIBUTION PLAN

Councilmembers of the City are covered by the Public Employees Defined Contribution Plan (PEDCP), a multiple-employer deferred compensation plan administered by the PERA. The PEDCP is a tax qualified plan under Section 401(a) of the IRC, and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. Minnesota Statutes, Chapter 353D.03, specifies plan provisions, including the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes 5.00 percent of their salary, which is matched by the elected official’s employer. For ambulance service personnel, employer contributions are determined by the employer, and for salaried employees, contributions must be a fixed percentage of salary. Employer contributions for volunteer personnel may be a unit value for each call or period of alert duty. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, the PERA receives 2.00 percent of employer contributions and 25 hundredths of 1.00 percent (0.25 percent) of the assets in each member’s account annually.

	Contribution Amount		Percentage of Covered Payroll		Required Rate for Employees and Employers
	Employee	Employer	Employee	Employer	
2020	\$ 1,437	\$ 1,437	5%	5%	5%
2019	\$ 1,402	\$ 1,402	5%	5%	5%
2018	\$ 1,368	\$ 1,368	5%	5%	5%

NOTE 14 – DEFINED BENEFIT PENSION PLAN – FIRE RELIEF ASSOCIATION

A. Plan Description

Volunteer firefighters of the Robbinsdale Fire Department (the Department) are members of the Association, which administers a single-employer defined benefit pension plan established to provide benefits for its members. The plan is established and administered in accordance with Minnesota Statutes, Chapter 424A. The Association is governed by a Board of nine trustees; six voting trustees elected by the members of the Association, and the City’s mayor, city clerk, and fire chief as ex officio members. As of the measurement date, the plan covered 30 active firefighters, 2 inactive members entitled to future benefits, and 5 surviving spouses/beneficiaries. The plan is a single-employer retirement plan and is established and administered in accordance with Minnesota Statutes, Chapter 69.

The Association maintains a separate Special Fund to accumulate assets to fund the retirement benefits earned by the Department’s membership. Funding for the Association is derived from an insurance premium tax in accordance with the Volunteer Firefighter’s Relief Association Financing Guidelines Act of 1971 (Chapter 261 as amended by Chapter 509 of Minnesota Statutes 1980). Funds are also derived from investment income.

**NOTE 14 – DEFINED BENEFIT PENSION PLAN – FIRE RELIEF ASSOCIATION
(CONTINUED)**

B. Benefits Provided

A firefighter who completes at least 20 years as an active member of the Department is entitled, after age 50, to a full service pension upon retirement. Upon retirement, an irrevocable election for a monthly or lump sum pension must be made. Members accepted after January 1, 1989 are only eligible for a lump sum pension.

The bylaws of the Association also provide for an early vested service pension for a retiring member who has completed fewer than 20 years of service. The reduced pension, available to members with 10 years of service, shall be equal to 60 percent of the pension as described by the bylaws. This percentage increases 4 percent per year so that at 20 years of service, the full amount prescribed is paid. Members who retire with less than 20 years of service, have reached the age of 50 years, and have completed at least 10 years of active membership, are entitled to a reduced service pension not to exceed the amount calculated by multiplying the member's service pension for the completed years of service times the applicable nonforfeitable percentage of pension.

C. Contributions

Minnesota Statutes, Chapters 424 and 424A authorize pension benefits for volunteer fire relief associations. The plan is funded by fire state aid, investment earnings, and, if necessary, employer contributions as specified in Minnesota Statutes and voluntary city contributions (if applicable). Required employer contributions are calculated annually based on an actuarial valuation using statutory provisions. The state of Minnesota contributed \$84,865 in fire state aid to the plan on behalf of the Department for the year ended December 31, 2020. The City contributed \$42,448 in accordance with state statutes requirements for the year ended December 31, 2020. Furthermore, the firefighters have no obligation to contribute to the plan.

D. Pension Costs

At year-end, the City reported a net pension asset of \$384,764 for the plan. The net pension asset was measured as of December 31, 2019. The total pension liability used to calculate the net pension asset in accordance with GASB Statement No. 68 was determined by applying an actuarial formula to specific census data certified by the Department as of December 31, 2019.

For the year ended December 31, 2020, the City recognized pension revenue of \$79,518 and pension expense of \$208,044.

**NOTE 14 – DEFINED BENEFIT PENSION PLAN – FIRE RELIEF ASSOCIATION
(CONTINUED)**

The following table presents the changes in net pension liability (asset) during the year:

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (Asset) (a-b)
Beginning balance	\$ 1,586,234	\$ 1,883,420	\$ (297,186)
Changes for the year			
Service cost	87,502	–	87,502
Interest on pension liability (asset)	116,871	–	116,871
Differences between expected and actual experience	(11,098)	–	(11,098)
Changes in assumptions	53,874	–	53,874
Changes in benefit terms	153,880	–	153,880
Contributions (state and local)	–	100,727	(100,727)
Net investment income	–	403,989	(403,989)
Benefit payments	(8,310)	(8,310)	–
Administrative costs	–	(16,109)	16,109
Total net changes	<u>392,719</u>	<u>480,297</u>	<u>(87,578)</u>
Ending balance	<u>\$ 1,978,953</u>	<u>\$ 2,363,717</u>	<u>\$ (384,764)</u>

At December 31, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ –	\$ 81,076
Changes in actuarial assumptions	70,553	37,696
Difference between projected and actual investment earnings	–	154,986
City contributions subsequent to the measurement date	42,448	–
State aid to the City subsequent to the measurement date	<u>84,865</u>	<u>84,865</u>
Total	<u>\$ 197,866</u>	<u>\$ 358,623</u>

Deferred outflows of resources totaling \$127,313 related to pensions resulting from city contributions and state aid received subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2021. Deferred inflows of resources totaling \$84,865 related to state aid received subsequent to the measurement date will be recognized for its impact on the net pension liability in the year ending December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to the plan will be recognized in pension expense as follows:

Year Ending December 31,	Pension Expense Amount
2021	\$ (64,903)
2022	\$ (59,854)
2023	\$ (32,837)
2024	\$ (60,406)
2025	\$ 2,620
Thereafter	\$ 12,175

**NOTE 14 – DEFINED BENEFIT PENSION PLAN – FIRE RELIEF ASSOCIATION
(CONTINUED)**

E. Actuarial Assumptions

The total pension liability at the measurement date was determined using the entry-age normal actuarial cost method and the following actuarial assumptions:

Retirement eligibility at 100 percent service pension at age 50 with 20 years of service, early vested retirement at age 50 with 10 years of service vested at 60 percent and increased by 4 percent for each additional year of service up to 20 and eligibility for deferred service

Inflation rate	2.50% per year
Investment rate of return	6.25%
20-year municipal bond yield	2.75%

The 6.25 percent long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates for expected future real rates of return (expected returns, net of inflation) were developed for each asset class using the plan’s target investment allocation, along with long-term return expectations by asset class. Inflation expectations were applied to derive the nominal rate of return for the portfolio.

The target allocation and best-estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return	Long-Term Expected Nominal Rate of Return
Domestic equity	57.98 %	4.76 %	7.26 %
International equity	5.90	5.41	7.94
Fixed income	7.43	2.01	4.51
Real estate and alternatives	0.01	4.53	7.03
Cash and equivalents	28.68	0.74	3.24
Total	100.00 %		6.25 %

The following changes in actuarial assumptions occurred since the last study:

- The expected investment return and discount rate decreased from 7.00 percent to 6.25 percent to reflect updated capital market assumptions.
- The mortality and withdrawal assumptions were updated from the rates used in the July 1, 2017 Minnesota PERA Police and Fire Plan actuarial valuation to the rates used in the July 1, 2019 Minnesota PERA Police and Fire Plan actuarial valuations.
- The inflation assumption decreased from 2.75 percent to 2.50 percent.

The following changes in plan provisions occurred since the last study:

- The lump sum benefit multiplier increased from \$7,800 to \$8,500.

**NOTE 14 – DEFINED BENEFIT PENSION PLAN – FIRE RELIEF ASSOCIATION
(CONTINUED)**

F. Discount Rate

The discount rate used to measure the total pension liability was 6.25 percent. The projection of cash flows used to determine the discount rate assumed that contributions to the plan will be made as specified in state statutes. Based on that assumption and considering the funding ratio of the plan, the fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Pension Liability (Asset) Sensitivity

The following presents the City’s net pension liability (asset) for the plan, calculated using the discount rate disclosed in the preceding section, as well as what the City’s net pension liability (asset) would be if it were calculated using a discount rate 1 percent lower or 1 percent higher than the current discount rate:

	1% Decrease in Discount Rate (5.25%)	Current Discount Rate (6.25%)	1% Increase in Discount Rate (7.25%)
Defined benefit plan			
Net pension liability (asset)	\$ (317,502)	\$ (384,764)	\$ (449,333)

H. Pension Plan Fiduciary Net Position

The Association issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained by writing to the City of Robbinsdale, Attention: Finance Department, 4100 Lakeview Avenue North, Robbinsdale, Minnesota 55422; or by calling (763) 537-4534.

NOTE 15 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN

A. Plan Description

The City provides post-employment benefits to certain eligible employees through the City’s OPEB Plan, a single-employer defined benefit plan administered by the City. All post-employment benefits are based on contractual agreements with employee groups. These contractual agreements do not include any specific contribution or funding requirements. The Plan does not issue a publicly available financial report. No plan assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

B. Benefits Provided

All retirees of the City have the option under state law to continue their medical insurance coverage through the City from the time of retirement until the employee reaches the age of eligibility for Medicare. For members of all employee groups, the retiree must pay the full premium to continue coverage for medical and dental insurance. Per state statutes, the City is also required to contribute towards the cost of continued health insurance coverage for officers and firefighters disabled or killed in the line of duty.

NOTE 15 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

The City is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees until the retiree reaches Medicare eligibility, whether the premiums are paid by the City or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an “implicit rate subsidy.” This benefit relates to the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the City’s younger and statistically healthier active employees.

C. Contributions

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the City. The City’s current year required pay-as-you-go contributions to finance the benefits described in the previous section totaled \$67,725.

D. Membership

Membership in the Plan consisted of the following as of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	11
Active plan members	<u>83</u>
Total members	<u><u>94</u></u>

E. Total OPEB Liability of the City

The City’s total OPEB liability of \$1,154,379 as of year-end was measured as of December 31, 2019, and was determined by an actuarial valuation as of January 1, 2020.

F. Actuarial Methods and Assumptions

The total OPEB liability was determined by an actuarial valuation as of January 1, 2020, using the entry-age normal level percent of pay method. The following actuarial assumptions applied to all periods included in the measurement, unless otherwise specified:

Discount rate	2.74%
20-year municipal bond yield	2.74%
Inflation rate	2.00%
Salary increases	3.25%
Medical trend rate	7.67%, grading to 5.00% over 10 years

Since the Plan is not funded by an irrevocable trust, the discount rate is equal to the 20-year municipal bond yield.

Mortality rates were based on the RP-2014 mortality tables used in the PERA plan of which the employee, retiree, or beneficiary is a participant.

NOTE 15 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

G. Changes in the Total OPEB Liability

	<u>Total OPEB Liability</u>
Beginning balance	\$ 723,903
Changes for the year	
Service cost	47,563
Interest	30,440
Differences between expected and actual experience	268,896
Changes in assumptions	138,017
Benefit payments	<u>(54,440)</u>
Total net changes	<u>430,476</u>
Ending balance	<u>\$ 1,154,379</u>

Assumption changes since the prior measurement date include the following:

- The discount rate was changed from 4.09 percent to 2.74 percent.
- The healthcare trend rates, mortality tables, and payroll growth rates were updated for changes in recent studies and inflationary adjustments.

H. Total OPEB Liability Sensitivity to Discount and Healthcare Cost Trend Rate Changes

The following presents the total OPEB liability of the City, as well as what the City’s total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	<u>1% Decrease in Discount Rate</u>	<u>Discount Rate</u>	<u>1% Increase in Discount Rate</u>
OPEB discount rate	1.74%	2.74%	3.74%
Total OPEB liability	\$ 1,272,502	\$ 1,154,379	\$ 1,049,970

The following presents the total OPEB liability of the City, as well as what the City’s total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

	<u>1% Decrease in Healthcare Trend Rate</u>	<u>Healthcare Trend Rate</u>	<u>1% Increase in Healthcare Trend Rate</u>
OPEB healthcare trend rate	6.67%, decreasing to 4.00% over 10 years	7.67%, decreasing to 5.00% over 10 years	8.67%, decreasing to 6.00% over 10 years
Total OPEB liability	\$ 1,025,106	\$ 1,154,379	\$ 1,308,345

NOTE 15 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

I. OPEB Expense and Related Deferred Outflows of Resources and Deferred Inflows of Resources

For the current year ended, the City recognized OPEB expense of \$119,512. As of year-end, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual economic experience	\$ 239,829	\$ –
Changes in actuarial assumptions	136,732	33,249
City contributions subsequent to the measurement date	67,725	–
Total	<u>\$ 444,286</u>	<u>\$ 33,249</u>

A total of \$67,725 reported as deferred outflows of resources related to OPEB resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to the plan will be recognized in pension expense as follows:

Year Ending December 31,	OPEB Expense Amount
2021	\$ 41,509
2022	\$ 41,509
2023	\$ 41,509
2024	\$ 41,509
2025	\$ 41,509
Thereafter	\$ 135,767

NOTE 16 – COMMITMENTS AND CONTINGENCIES

A. Contingent Liabilities

The City has the usual and customary type of miscellaneous legal claims pending at year-end. Although the outcome of these lawsuits is not presently determinable, the City's management believes that the City will not incur any material monetary loss resulting from these claims. No loss has been recorded on the City's financial statements relating to these claims.

The City's tax increment districts are subject to review by the Minnesota Office of the State Auditor. Any disallowed claims or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance, which would have a material effect on the financial statements.

B. Federal and State Funding

Amounts recorded or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of claims which may be disallowed by the grantor agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

NOTE 16 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

C. Construction Commitments

At December 31, 2020, the City is committed to various construction contracts for the improvement of city property. The City's remaining commitment under these contracts is \$31,639,066.

D. Tax Abatement Agreements

The City, in order to spur economic development and redevelopment, will enter into private development and redevelopment agreements to encourage a developer to construct, expand, or improve new or existing properties and buildings, or clean-up and redevelop blighted areas. These agreements may, in substance, be a tax abatement, but will depend on their individual circumstances.

The City is authorized to create a TIF plan under Minnesota Statutes, Chapter 469.175. The criteria that must be met under the statutes are that, in the opinion of the municipality:

- The proposed development or redevelopment would not reasonably be expected to occur solely through private investment within the reasonably foreseeable future;
- The increased market value of the site that could reasonably be expected to occur without the use of TIF would be less than the increase in the market value estimated to result from the proposed development after subtracting the present value of the projected tax increments for the maximum duration of the district permitted by the plan. The requirements of this item do not apply if the district is a housing district;
- The TIF plan conforms to the general plan for the development or redevelopment of the municipality as a whole; and
- The TIF plan will afford maximum opportunity, consistent with the sound needs of the municipality as a whole, for the development or redevelopment of the project by private enterprise.

The City currently has three tax abatement agreements. Under the first agreement, the City rebated \$27,711 of property tax increment in the current year, and the remaining commitment on this agreement was \$329,218 as of year-end. Under the second agreement, the City rebated \$121,840 of property tax increment in the current year, and the remaining commitment on this agreement was \$2,049,501 as of year-end. Under the third agreement, the City rebated \$1,961 of property tax increment in the current year, and the remaining commitment on this agreement was \$2,500,000 as of year-end.

E. COVID-19 Pandemic

The COVID-19 pandemic has caused economic and financial market volatility in the United States and around the world, along with significant business and operational disruptions for many organizations. Due to the unknown breadth and duration of this pandemic, any potential impact it may have on the City's future operations and financial condition cannot be determined at this time and has not been reflected in these financial statements.

(1) The City made a change in accounting principle to utilize the look-back period as the measurement date. This is an accepted practice and allows the City to complete its Comprehensive Annual Financial Report in a more timely manner. This change required the use of the same actuary study and pension report for the 2016 and 2017 fiscal years.

Note: The City implemented GASB Statement No. 68 in fiscal 2015 (using a December 31, 2015 measurement date). This schedule is intended to present 10-year trend information. Additional years will be added as they become available.

CITY OF ROBBINSDALE

Notes to Required Supplementary Information
December 31, 2020

PERA – GENERAL EMPLOYEES RETIREMENT FUND

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The price inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25 percent less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years two through five, and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 Table to the Pub-2010 General Mortality Table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 Disabled Annuitant Mortality Table to the Pub-2010 General/Teacher Disabled Annuitant Mortality Table, with adjustments.
- The mortality improvement scale was changed from MP-2018 to MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100.00 percent joint and survivor option changed from 35.00 percent to 45.00 percent. The assumed number of married female new retirees electing the 100.00 percent joint and survivor option changed from 15.00 percent to 30.00 percent. The corresponding number of married new retirees electing the life annuity option was adjusted accordingly.

2020 CHANGES IN PLAN PROVISIONS

- Augmentation for current privatized members was reduced to 2.00 percent for the period July 1, 2020 through December 31, 2023, and zero percent thereafter. Augmentation was eliminated for privatizations occurring after June 30, 2020.

CITY OF ROBBINSDALE

Notes to Required Supplementary Information (continued)
December 31, 2020

PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2017 to MP-2018.

2019 CHANGES IN PLAN PROVISIONS

- The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044, and 2.50 percent per year thereafter, to 1.25 percent per year.

2018 CHANGES IN PLAN PROVISIONS

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to zero percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

CITY OF ROBBINSDALE

Notes to Required Supplementary Information (continued)
December 31, 2020

PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60.00 percent for vested and nonvested deferred members. The revised CSA loads are now zero percent for active member liability, 15.00 percent for vested deferred member liability, and 3.00 percent for nonvested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year for all years, to 1.00 percent per year through 2044, and 2.50 percent per year thereafter.

2017 CHANGES IN PLAN PROVISIONS

- The state's contribution for the Minneapolis Employees Retirement Fund equals \$16.0 million in 2017 and 2018, and \$6.0 million thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21.0 million to \$31.0 million in calendar years 2019 to 2031. The state's contribution changed from \$16.0 million to \$6.0 million in calendar years 2019 to 2031.

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2035 and 2.50 percent per year thereafter, to 1.00 percent per year for all years.
- The assumed investment return was changed from 7.90 percent to 7.50 percent. The single discount rate changed from 7.90 percent to 7.50 percent.
- Other assumptions were changed pursuant to the experience study June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth, and 2.50 percent for inflation.

2015 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2030 and 2.50 percent per year thereafter, to 1.00 percent per year through 2035, and 2.50 percent per year thereafter.

2015 CHANGES IN PLAN PROVISIONS

- On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892.0 million. Upon consolidation, state and employer contributions were revised; the state's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

PERA – PUBLIC EMPLOYEES POLICE AND FIRE FUND

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2018 to MP-2019.

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2017 to MP-2018.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2016 to MP-2017.

2018 CHANGES IN PLAN PROVISIONS

- Post-retirement benefit increases were changed to 1.00 percent for all years, with no trigger.
- An end date of July 1, 2048 was added to the existing \$9.0 million state contribution.
- New annual state aid will equal \$4.5 million in fiscal years 2019 and 2020, and \$9.0 million thereafter, until the plan reaches 100.00 percent funding, or July 1, 2048, if earlier.
- Member contributions were changed from 10.80 percent to 11.30 percent of pay, effective January 1, 2019, and 11.80 percent of pay, effective January 1, 2020.
- Employer contributions were changed from 16.20 percent to 16.95 percent of pay, effective January 1, 2019, and 17.70 percent of pay, effective January 1, 2020.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to zero percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

CITY OF ROBBINSDALE

Notes to Required Supplementary Information (continued)
December 31, 2020

PERA – PUBLIC EMPLOYEES POLICE AND FIRE FUND (CONTINUED)

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- Assumed salary increases were changed as recommended in the June 30, 2016 experience study. The net effect is proposed rates that average 0.34 percent lower than the previous rates.
- Assumed rates of retirement were changed, resulting in fewer retirements.
- The CSA load was 30.00 percent for vested and nonvested deferred members. The CSA has been changed to 33.00 percent for vested members, and 2.00 percent for nonvested members.
- The base mortality table for healthy annuitants was changed from the RP-2000 Fully Generational Table to the RP-2014 Fully Generational Table (with a base year of 2006), with male rates adjusted by a factor of 0.96. The mortality improvement scale was changed from Scale AA to Scale MP-2016. The base mortality table for disabled annuitants was changed from the RP-2000 Disabled Mortality Table to the mortality tables assumed for healthy retirees.
- Assumed termination rates were decreased to 3.00 percent for the first three years of service. Rates beyond the select period of three years were adjusted, resulting in more expected terminations overall.
- Assumed percentage of married female members was decreased from 65.00 percent to 60.00 percent.
- Assumed age difference was changed from separate assumptions for male members (wives assumed to be three years younger) and female members (husbands assumed to be four years older) to the assumption that males are two years older than females.
- The assumed percentage of female members electing joint and survivor annuities was increased.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent for all years, to 1.00 percent per year through 2064, and 2.50 percent thereafter.
- The single discount rate was changed from 5.60 percent per annum to 7.50 percent per annum.

CITY OF ROBBINSDALE

PERA – PUBLIC EMPLOYEES POLICE AND FIRE FUND (CONTINUED)

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2037, and 2.50 percent per year thereafter, to 1.00 percent per year for all future years.
- The assumed investment return was changed from 7.90 percent to 7.50 percent.
- The single discount rate changed from 7.90 percent to 5.60 percent.
- The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth, and 2.50 percent for inflation.

2015 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2030, and 2.50 percent per year thereafter, to 1.00 percent per year through 2037, and 2.50 percent per year thereafter.

2015 CHANGES IN PLAN PROVISIONS

- The post-retirement benefit increase to be paid after attainment of the 90.00 percent funding threshold was changed from inflation up to 2.50 percent, to a fixed rate of 2.50 percent.

CITY OF ROBBINSDALE

Notes to Required Supplementary Information (continued)
December 31, 2020

ROBBINSDALE FIRE DEPARTMENT RELIEF ASSOCIATION

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The expected investment return and discount rate decreased from 7.00 percent to 6.25 percent to reflect updated capital market assumptions.
- The mortality and withdrawal assumptions were updated from the rates used in the July 1, 2017 Minnesota PERA Police and Fire Plan actuarial valuation to the rates used in the July 1, 2019 Minnesota PERA Police and Fire Plan actuarial valuations.
- The inflation assumption decreased from 2.75 percent to 2.50 percent.

2020 CHANGES IN PLAN PROVISIONS

- The lump sum benefit multiplier increased from \$7,800 to \$8,500.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed investment return was changed from 7.75 percent to 7.00 percent. The single discount rate was changed from 7.75 percent to 7.00 percent.
- The mortality and withdrawal assumptions were updated from the rates used in the July 1, 2016 Minnesota PERA Public Employees Police and Fire Fund plan actuarial valuation to the rates used in the July 1, 2017 Minnesota PERA Public Employees Police and Fire Fund plan actuarial valuations.

2017/2016 CHANGES

- The City made a change in accounting principle to utilize the look-back period as the measurement date. This is an accepted practice and allows the City to complete its Comprehensive Annual Financial Report in a timelier manner. This change required the use of the same actuary study and pension report for the 2016 and 2017 fiscal years.

2017/2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed investment return was changed from 7.50 percent to 7.75 percent. The single discount rate was changed from 7.50 percent to 7.75 percent.

2015 CHANGES IN ACTUARIAL ASSUMPTIONS

- The retirement rates were updated to reflect plan experience and expectations.

CITY OF ROBBINSDALE

Notes to Required Supplementary Information (continued)
December 31, 2020

OTHER POST-EMPLOYMENT BENEFITS PLAN

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 4.09 percent to 2.74 percent.
- The healthcare trend rates, mortality tables, and payroll growth rates were updated for changes in recent studies and inflationary adjustments.

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 3.44 percent to 4.09 percent.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The discount rate was changed from 3.78 percent to 3.44 percent.

SUPPLEMENTAL INFORMATION

READER'S NOTES:

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Forfeiture Fund

This fund was established to account for the costs and proceeds associated with confiscating vehicles involved in DWI cases and other forfeiture situations. The proceeds from the sale of forfeited items offsets the legal, repair and maintenance, licensing, and disposal costs.

City Code Compliance Fund

This fund was established to account for programs funded by special assessments to comply with city code and emergency issues related to private property, which promotes the safety and welfare of the citizens.

COVID-19 Fund

This fund was established to account for programs funded by intergovernmental revenues to support community development and public health, in response to the COVID-19 pandemic.

CAPITAL PROJECT FUND

Capital Improvement Fund

This fund was established to account for construction and/or improvements related to the following programs: cable grant, government buildings, park improvements, and capital equipment notes. Funding is generally provided through grants from other governments or organizations and transfers from other funds.

READER'S NOTES:

INTERNAL SERVICE FUNDS

Internal service funds are used to account for the financing of goods or services provided by one department to other departments on a cost-reimbursement basis.

Central Garage Fund

This fund was established to account for the cost of operating a maintenance facility for mobile equipment used by other city departments. Such costs are billed to other departments at cost plus a charge to replace the equipment.

Central Services Fund

This fund was established to account for the cost of operating the Information Technology Department, Central Services (phone system, postage, copier, and general supplies), and Government Building Operations (includes City Hall and the Police and Fire Station). Costs are recouped through charges to other departments based upon a systematic measure (estimate) of resources used.

Equipment Replacement Fund

This fund was established to provide for the systematic replacement of equipment as required.

Risk Insurance Fund

The City Council established this fund to provide for the deductible portion of insurance coverage that the City carries. Through this action, charges are made to all departments to recoup the costs of the insurance over a five-year period, and the amount of potential risk assumed by the City through the deductible portion of the coverage.

Benefit Accrual Fund

The City Council established this fund to eliminate the fragmentation of vacation and sick leave among the General Fund and enterprise funds for administrative purposes.

STATISTICAL SECTION

(UNAUDITED)

READER'S NOTES:

STATISTICAL SECTION (UNAUDITED)

This part of the City of Robbinsdale, Minnesota's (the City) Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being has changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant revenue source, including property tax revenue.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment in which the City's financial activities take place.

Operating Indicators

These schedules contain service and infrastructure data to help the reader understand how the information in the City's Comprehensive Annual Financial Report relates to the services the City provides, and the activities it performs.

Source: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Report for the relevant year.

(1) Information reflects total tax rates levied by each entity. Tax rates are expressed in terms of “net tax capacity.” A property’s tax capacity is determined by multiplying its taxable market value by a state determined class rate. Class rates vary by property type and changed periodically based on state legislation.

(2) Overlapping rates are those of local and county governments that apply to property owners within the City. Not all overlapping rates apply to all city property owners (e.g., the rates for special districts apply only to the proportion of the government’s property owners whose property is located within the geographic boundaries of the special district).

CITY OF ROBBINSDALE

Direct and Overlapping Governmental Activities Debt
December 31, 2020

Governmental Unit	Debt Outstanding	City Percentage	Share Amount
Direct debt			
City of Robbinsdale	\$ 11,396,121	100.00 %	\$ 11,396,121
Overlapping debt			
ISD No. 281, Robbinsdale Area Schools	206,265,000	11.06	22,812,909
Hennepin County	1,017,430,000	0.60	6,104,580
Suburban Hennepin Three Rivers Park District	52,330,000	0.86	450,038
Hennepin County Regional RR Authority	94,705,000	0.60	568,230
Metropolitan Council (1)	<u>245,380,000</u>	0.29	<u>711,602</u>
Total overlapping debt	<u>1,616,110,000</u>		<u>30,647,359</u>
Total direct and overlapping debt	<u><u>\$ 1,627,506,121</u></u>		<u><u>\$ 42,043,480</u></u>

(1) Includes debt for Metropolitan Council Transit Operations.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping government.
